- 1 **Darwin, Charles. THE FOUNDATIONS OF THE ORIGIN OF SPECIES.** Two Essays written in 1842 and 1844 by Charles Darwin. Edited by his son Francis Darwin, Honorary Fellow of Christ's College. Cambridge: at the University Press, 1909. First Edition; pp. [ii], xxx, 264(last blank); portrait frontispiece, with tissue-guard, 1 plate, index; original buckram with bevelled boards (lightly rubbed; spine a little darkened with slight wear to ends); top edge gilt, others uncut (a little foxing of edges); a nice copy; very rare. Cambridge; at the University Press; 1909. *\*\*\*Freeman 1556. With 19-page introduction by Francis Darwin. An attractively produced, and very important, book, the first publication of the two essays, the first of which was discovered in manuscript only in 1896: these form the first detailed expression of Darwin's ideas on evolution.* #66500 **AS\$4500.00**

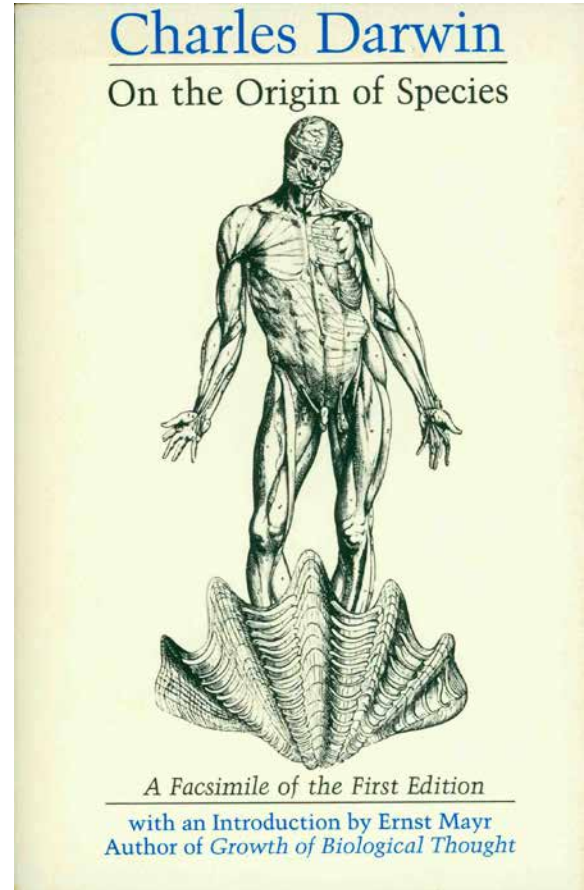

- 2 **Darwin, Charles.** **ON THE ORIGIN OF SPECIES** by Means of Natural Selection, or The Preservation of Favoured Races in the Struggle for Life. By Charles Darwin, M.A., Fellow of the Royal, Geological, Linnaean, etc., Societies; Author of 'Journal of Researches during H.M.S. Beagle's Voyage Round the World.' London: John Murray, Albemarle Street. 1859. The right of Translation is reserved. Facsimile Edition; pp. x, 502; folding diagram, index; original vinyl; a fine copy. (Bruxelles; Culture et Civilisation; 1969). \*\*\**Freeman 614.* *An exact unaltered facsimile of the first edition, the first such, and possibly the ONLY unchanged reprint of the First Edition.* #66432 A\$195.00

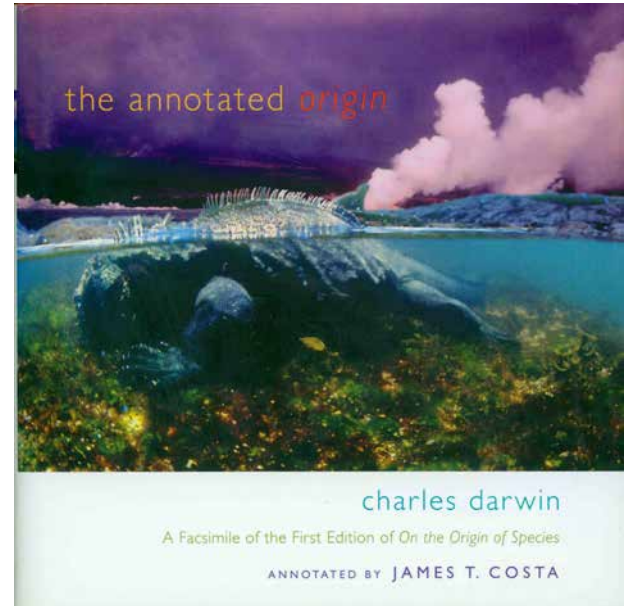

- 3 **Darwin, Charles. ON THE ORIGIN OF SPECIES.** A Facsimile of the First Edition with an Introduction by Ernst Mayr. Facsimile Edition; pp. [ii], xxviii, x, 490, [491-502](bibliography & subject index), [2](blank); portrait frontispiece, folding diagram, bibliography, index; original cloth (spine faded; ink annotations to front endpaper, Mayr's Introduction and to last chapter); a very good copy. Cambridge, Massachusetts; Harvard University Press; 1964. \*\*\**Freeman 602. The first facsimile edition, but the bibliography and index (replacing the original) are new to this edition.* #60116 **A\$65.00**

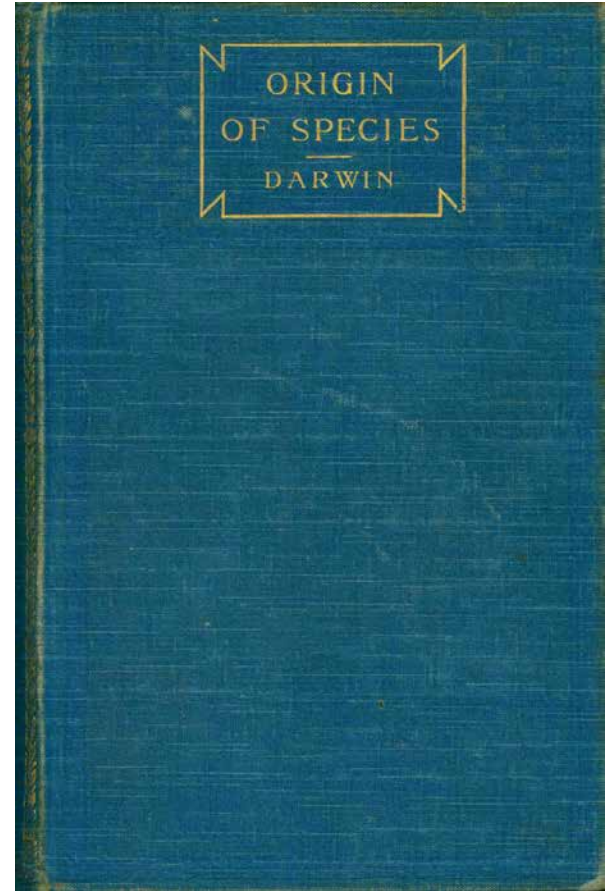

- 4 **Darwin, Charles. *ON THE ORIGIN OF SPECIES.*** A Facsimile of the First Edition with an Introduction by Ernst Mayr. Facsimile Edition, Thirteenth Printing; pp. [ii], xxviii, x, 490, [491-520] (bibliography & subject index, last 5 blank); portrait frontispiece, double-page diagram (at end), bibliography, index; original wrappers; a fine copy. Cambridge, Massachusetts; Harvard University Press; (1994). *\*\*\*A later printing of Freeman 602, first published 1964, the first facsimile edition. - 5 Darwin, Charles. **THE ANNOTATED ORIGIN.** A Facsimile of the First Edition of *On the Origin of Species*. Annotated by James T. Costa. Cr. 8vo; pp. 390(last blank), [2] (adv. for Minerva Library, New Series); portrait frontispiece, 3 plates, index; original blue cloth, gilt; a very good copy; very scarce. London; Ward, Lock, & Co., Limited; 1901. \*\*\**Freeman 477. No. XVI in the Minerva Library, New Series, though not explicitly identified as such. The text is taken from the first edition (this having just come out of copyright in November 1901), this being the first English edition not published by John Murray apart from two issues from George Routledge in the series 'Sir John Lubbock's Hundred Books,' but these were assembled from sheets bought from John Murray.* #35437 **A\$125.00**

- 7 **Darwin, Charles.** **ON THE ORIGIN OF SPECIES** by Means of Natural Selection or The Preservation of Favoured Races in the Struggle for Life. By Charles Darwin, M.A. [Issued for the Rationalist Press Association, Limited]. First Watts Edition; pp. 208(last 5 adv.); portrait frontispiece, full-page diagram, index; original printed cloth (boards rather damaged; a few unobtrusive stamps of the Windsor Institute, otherwise internally very good). London; Watts & Co.; 1903. \*\*\**Freeman 491. A reprint of the First Edition.* #66492 **A\$20.00**

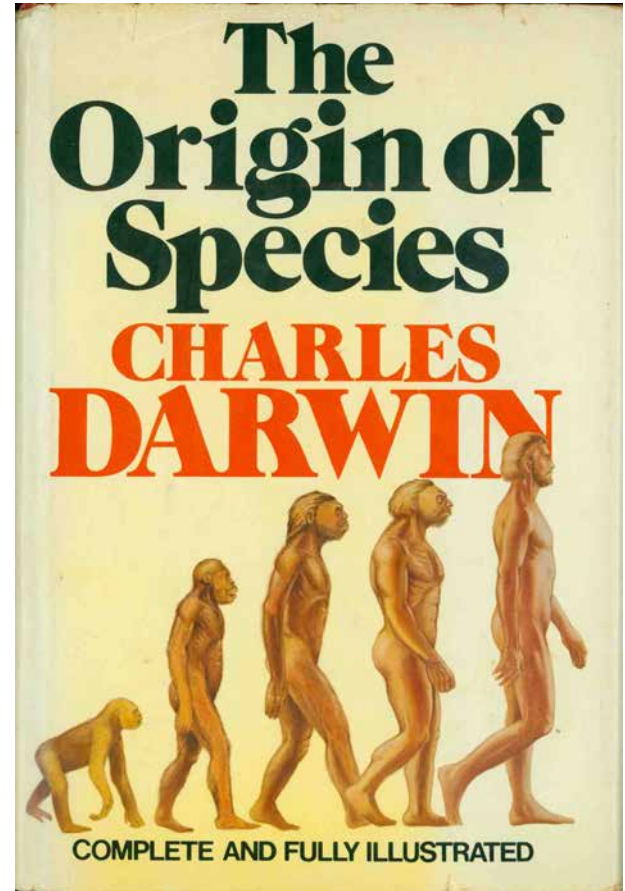

- 8 **Darwin, Charles.** **ON THE ORIGIN OF SPECIES** by Means of Natural Selection or The Preservation of Favoured Races in the Struggle for Life. - 9 Darwin, Charles. **ON THE ORIGIN OF SPECIES** by Means of Natural Selection, or The Preservation of Favoured Races in the Struggle for Life. By Charles Darwin. (A Reprint of the First Edition). With a Foreword by Dr. C. D. Darlington, F.R.S. Reduced demy 8vo; pp. xxii, 426; double-page diagram, index; original cloth; (a little foxing towards end); a nice copy in worn dustwrapper. London; Watts & Co.; (1950). *\*\*\*Freeman 571. Claimed to be the first reprint of the first edition, "the only changes being punctuation", but this is clearly not so, the very same publisher having reprinted the first edition in 1903 (complete with an extensive note stating that fact—this not explicitly noted by Freeman—see item 7 above).* #66431 **A\$85.00**

- 10 Darwin, Charles. **THE ORIGIN OF SPECIES** by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. With a New Preface by Patricia Horan. - 11 Darwin, Charles. **THE ORIGIN OF SPECIES** by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. With a New Preface by Patricia Horan. Med. 8vo; pp. [xii], 460, [18](glossary, last blank); portrait frontispiece, full-page map, 90 full-page illustrations, double-page diagram, Historical Sketch, glossary; original green vinyl, fully gilt; a fine copy; issued without dustwrapper? - 12 **Darwin, Charles.** **ON THE ORIGIN OF SPECIES** By Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. Introduced by Richard Keynes. Roy. 8vo, First Edition in this form; pp. xxii, 416(last blank); coloured frontispiece & 24 plates (mostly coloured), diagram, glossary, index; original gilt-illustrated cloth; a fine copy in slipcase. London; The Folio Society; 2006. *\*\*\*Reproducing the text of the first edition "with some minor emendations, and with the inclusion of a glossary of scientific terms first published in the fifth edition of... 1869"—this statement is in error as the glossary was not included until the Sixth Edition of 1872. An attractive edition, nicely produced, with good legible type. #30793 A\$165.00*

- 13 **Darwin, Charles. ON THE ORIGIN OF SPECIES.** The Illustrated Edition. David Quammen, General Editor. - 14 **Darwin, Charles.** **THE ORIGIN OF SPECIES.** 150th Anniversary Edition. Special Introduction by Ray Comfort. Pp. [vi], 298; 12 illustrations; original stiff wrappers; a fine copy. Alachua, Florida; Bridge Logos Foundation; (2009). *\*\*\*This edition is a reprint of the First Edition of 1859, and it appears to be textually complete, with all chapters present and of appropriate length. Only the chapter summaries at the head of each chapter and the folding diagram are apparently omitted. Various reports on the World Wide Web indicate that some early issues omitted up to four chapters allegedly to keep down production costs. Later issues are claimed to be complete as is apparently the case with this copy. This edition was handed out free to college students in the USA and later [2010] to students on some Australian campuses. The "Special Introduction" comprises a brief more or less accurate introduction to Darwin's life followed by some very distorted accounts of evolutionary science attempting to buttress Intelligent Design, and some irrelevant religious and moralistic claptrap. An interesting artefact of the modern revivalist religious backlash to evolutionary science.* #46022 **A\$35.00**

- 15 Darwin, Charles. **THE ORIGIN OF SPECIES.** Introduction by Jeff Wallace. [General Editor: Tom Griffith MA, MPhil]. Post 8vo, First Edition in this form; pp. xxvi, 393+[2](adv.)+[10](blank); full-page diagram, bibliography, chronology, glossary; original pictorial wrappers; a fine copy. (Ware, Hertfordshire); Wordsworth Classics of World Literature; (1998). *\*\*\*A rather mixed edition, with the text taken from the First Edition, the Historical Sketch taken from its first appearance in the Third Edition, and the Glossary taken from the Sixth Edition, but no index.* #66483

A\$20.00

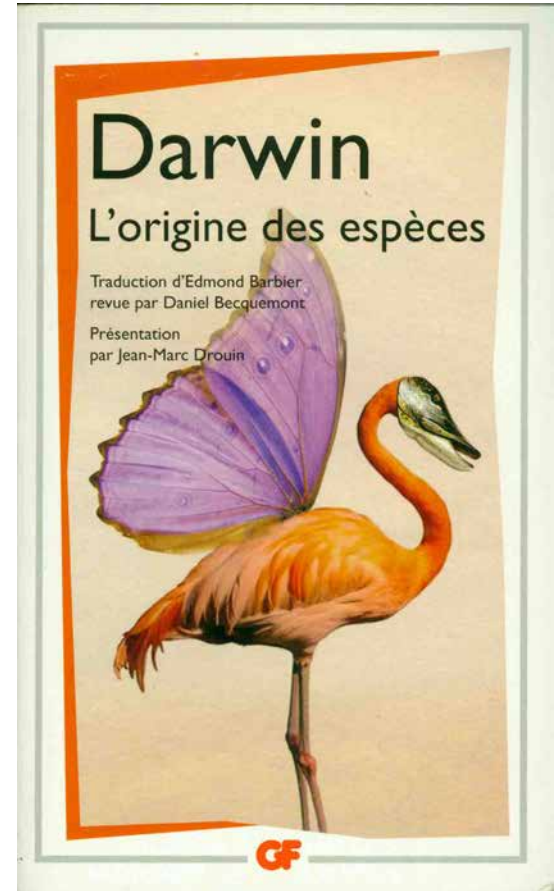

- 16 Darwin, Charles. **THE ORIGIN OF SPECIES** and **THE VOYAGE OF THE BEAGLE**. With an introduction by Ruth Padel. Pp. xx, 518 (last blank, 'Voyage'), [519]-972 ('Origin'); several figures in 'Voyage', double-page diagram in 'Origin', glossary, index; original stiff wrappers; (a few light pencil markings towards the end); a very good used copy. London; Vintage Books; (2009). \*\*\**The First Edition of the 'Origin', together with the later Glossary and Historical Sketch, preceded by the second edition of the 'Journal'*. #66494 **A\$15.00**

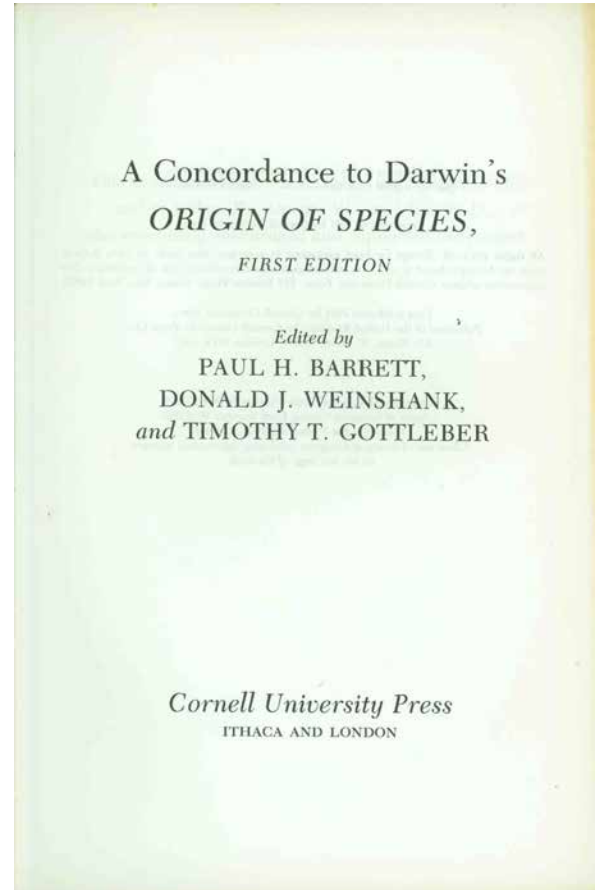

- 17 **Darwin**, Charles. **L'ORIGINE DES ESPECES**. Au moyen de la Selection Naturelle ou la Preservation des Races Favorisees dans la Lutte pour la Vie. Texte etabli par Daniel Becquemont a partir de la traduction de l'anglais d'Edmond Barbier. Presentation, chronologie et bibliographie par Jean-Marc Drouin. Edition mise a jour en 2008. Here however, the edition from which the text is taken has reverted to the Second Edition, which is of particular interest as it represents Darwin's initial response to the storm of controversy aroused by the work's first publication. The bibliography, chronology, and Beer's Introduction are also valuable additions to this edition.* #66475 **A\$25.00**

This is the first issue of the sixth and final edition, the last to be substantially revised by Darwin, quite extensively re-written, and including a new chapter in refutation of objections to his theory, especially those of St. George Mivart, the Roman Catholic biologist. - 43 **Darwin, Charles.** **THE ORIGIN OF SPECIES** by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. By Charles Darwin, M.A., LL.D., F.R.S., etc. Sixth Edition, with Additions and Corrections. With a Portrait. In two volumes.—Vol. I [II]. London: John Murray, Albemarle Street. 1891. Cr. 8vo, Sixth Edition, Second Issue of Library Edition; Vol. I, pp. [ii], xxvi, 366, [2](adv., verso blank); portrait frontispiece (with tissue-guard), folding diagram; Vol. II, pp. vi, 340; glossary, index; original grey-green cloth; original navy blue chalk-surfaced endpapers; (spines a little dull & ends slightly worn; a little foxing at start of first volume); a nice set; very scarce. London; John Murray; 1891. *\*\*\*Freeman 437. The Sixth Edition was the final edition extensively edited by Darwin and the first edition to drop the word 'ON' from the title and the first edition of the 'Origin' to use the word 'evolution'. The Glossary was compiled by W. S. Dallas at Darwin's request. This two-volume edition, the second in this form, it having first been issued in 1888 (Freeman 422) as the 'Library Edition', is a handsome work, with larger type and printed on thicker paper. The title-pages to this set are cancels, suggesting it may simply be a re-issue of the 1888 edition, and there is no indication of a 'Library Edition' as such, however the word 'indigeens' in Chapter IV has been corrected to 'indigenes' and the text is clearly printed from stereotypes, at least in part, so the reason for the cancels is somewhat obscure, and as such not noted by Freeman. Both of these two-volume issues are very seldom seen on the market, presumably being destined for libraries, and were probably produced in quite limited numbers, this issue having no 'thousand' designation, and the original two-volume issue of 1888 sharing the Thirty-third Thousand designation with another one-volume issue having the regular pagination and small type of the one-volume sixth edition.* #66452 **A\$850.00**

## NOTICE TO CUSTOMERS:

This is our one hundred and sixty-first short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist.

We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: [books@GastonRenard.com](mailto:books@GastonRenard.com) and copying and pasting the entries of the items you want from the list above.
