Melbourne; Melbourne University Press; 1994. ****Number 16 in the fine series of books published under the Miegunyah Press imprint and a superb and interesting production. The French explorer, Marion Dufresne has been largely neglected by French, English and Australian writers alike, but he reached Tasmania before the English and his expedition was the first to encounter the Tasmanian Aborigines and amongst the earliest of the European visitors to New Zealand. His life is remarkable for its high adventure and the parallels with the life of the great English navigator, James Cook. He played a part in the rescue from Scotland of Bonnie Prince Charlie, made numerous voyages to the East, including amongst his discoveries the most westerly islands of the Indian Ocean. Like Cook, he was a brilliant mariner who learned his craft in merchant shipping before joining the French Royal Navy, was involved in scientific efforts to observe the transit of Venus, and perished (in New Zealand) at the hands of Polynesian natives. This excellent and well-produced biography fills a glaring gap in the exploration literature and we recommend it highly. Only 1000 copies were printed and it was soon out-of-print.* #42680 **A\$295.00**

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist.

We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: books@GastonRenard.com and copying and pasting the entries of the items you want from the list above.
