20 [Conder, James Bryance [Bryant?]. **UNDER CANVAS**]. Folio; pp. [ii], 194(last blank) plus unused blanks to Page 232 at end; wire-bound notebook; in very good condition. No Place; Unpublished (?); written c. 1889. \*\*\**An account of a voyage in the barque "Ellora" together with some other anecdotes including of the ship "Spindrifft", preceded by an original poem by Conder (the two pages at start). Apparently an unpublished manuscript, here transcribed in several different but highly legible hands, evidently from the original then in the possession of the author's granddaughter, Betty Cromb, probably in preparation for publication, with some occasional marginal notes or corrections, together with a copied photograph of the Author, "Yours always, Jim", and an issue of 'Wave, Newsletter of the Barque "Polly Woodside" Volunteers Association' containing two pages of text and two pictures of the "Ellora". The Author joined the "Ellora" at Port Melbourne in October 1889 and the bulk of the manuscript comprises an account of the daily doings of the ship and the experiences of the crew and the Author's experiences ashore in England. The narrative is written in an easy style and relates several incidents including the deaths of some of the crew (from eating rat poison) and of the Skipper. Concluding at Page 153, the "Ellora" narrative is followed by some anecdotes and stories of other ships and seafaring life, also by Conder. The Author later joined the Victorian Navy.*

## AN ESSENTIAL BOOK IN ANY MARITIME LIBRARY

- 51 **Parkin, Ray. H. M. BARK ENDEAVOUR.** Her place in Australian History. With an Account of her Construction, Crew and Equipment and a Narrative of her Voyage on the East Coast of New Holland in the Year 1770. With Plans, Charts and Illustrations by the Author. Med. 4to, First Edition; pp. xii, 468; 25 maps, 31 full- & half-page ship drawings and 12 smaller, several sourced from original drawings by Sydney Parkinson, 2 reproductions of original drawings by Parkinson, 15 other illustrations by Ray Parkin (mostly views), notes, bibliography, index; original cloth, gilt; together with, in cloth folding case, 15 detailed ship drawings and plans by Ray Parkin, each 800 by 580 mm., and sourced from original Admiralty drawings supplemented by sketches of Sydney Parkinson, artist on the "Endeavour"; a fine set in cloth slipcase. (Melbourne); The Miegunyah Press; (1997). *\*\*\*First Edition, limited to 1000 copies for sale, and a superior production to any subsequent printings. Number Thirteen in the second Miegunyah Press series. A magnificent production; a long-overdue detailed analysis of Captain James Cook's ship, fully placed in the context of her time. The Endeavour is one of the most famous ships in maritime history, yet surprisingly few details of her were known to any but a small number of maritime historians. More than twenty-five years before publication of this book, Ray Parkin, seaman, author and artist was amazed to find how little was known and recorded of this ship, and set out to document everything he could discover. His researches were encouraged by that renowned scholar and chronicler of James Cook, Professor J. C. Beaglehole. The result is the most painstaking study of the Endeavour yet undertaken and a unique account of a great voyage of discovery: the passage of the Endeavour up the east coast*

of Australia (then called New Holland) in the year 1770. Written for the scholar, mariner and layperson alike, Ray Parkin has recreated for the reader the very "experience" of being on board H. M. Bark "Endeavour". With meticulous research, he reveals what she looked like, how she sailed, how she smelled; all aspects of daily life on board. No part of the ship or her functioning is too insignificant for his enquiries. How many strands of yarn were there in the ships cable? (954) Did the ship have a lightning conductor? (Yes) What was the diameter of the main mast? (21 inches). The work is divided into two sections: **Part I, The World of the Ship**, details the sailor and his environment, the Captain, the ship herself, scurvy and provisioning, the ship's company, and remarks on individuals come to notice through misfortune or by their sins and adventures. The text is accompanied by a series of plans and figures depicting the ship's architecture and construction, her deck plan, rigging, sails, armament, boats, cables, anchors and accommodation. Fifteen of these are reproduced as large folding full-size sketches in the accompanying folding case. **Part II, The Voyage** (up the east coast of Australia), is a masterly synthesis of the Ships Log and the journals of James Cook, Sydney Parkinson and Joseph Banks, supplemented where illuminating and appropriate, by extracts from the journals of other members of the ship's complement, and with an interpretive commentary and clearly drawn explanatory charts. The Author, Ray Parkin, was born in Melbourne and joined the Royal Australian Navy in 1928, spending eighteen years in the service. He was on board HMAS Perth in 1942 when the cruiser was sunk in Sunda Strait, killing two thirds of her complement. After the sinking Mr Parkin spent three and a half years as a Japanese prisoner of war in Java, on the Burma-Siam railway and in coal mines in Japan. His vivid accounts of these experiences in World War II were published by the Hogarth Press: "Out of the Smoke" (1960), "Into the Smother" (1963), and "The Sword and the Blossom" (1967). At the end of the war Mr Parkin completed a fine arts course. He worked on the Melbourne waterfront until his retirement in 1975 when he went to London to continue his research on the Endeavour. "**H. M. Bark Endeavour**", is an absorbing book: discursive, erudite, at times poetic; full of wisdom, insight and information. It is an ESSENTIAL companion and supplement to the standard works on Cook's voyages. Sadly, Ray Parkin died in May, 2005. #49819

## NOTICE TO CUSTOMERS:

This is our one hundred and ninetieth short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist.

We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: [books@GastonRenard.com](mailto:books@GastonRenard.com) and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by fax or by post please use the Order Form at end.
