- 36 **Grant, James.** **THE NARRATIVE OF A VOYAGE OF DISCOVERY**, performed in His Majesty's Vessel the Lady Nelson, of Sixty Tons Burthen, with Sliding Keels, in the Years 1800, 1801, and 1802, to New South Wales. By James Grant, Lieutenant in the Royal Navy. Including Remarks on the Cape de Verd Islands, Cape of Good Hope, the hitherto Unknown Parts of New Holland, discovered by him in his Passage (the first ever attempted from Europe) through the Streight separating that Island from the land discovered by Van Dieman [sic]: Together with Various Details of his Interviews with the Natives of New South Wales; Observations on the Soil, Natural Productions, &c. not known or very slightly treated of by former Navigators; with his Voyage home in the Brig Anna Josepha round Cape Horn; and an Account of the Present State of the Falkland Islands. To which is prefixed an Account of the Origin of Sliding Keels, and the Advantages resulting from their Use; With an Appendix of Orders, Certificates, and Examinations, relative to the Trial Cutter. The Whole illustrated with elegant Engravings. London: Printed by C. Roworth, Bell Yard, Fleet Street, for T. Egerton, Military Library, Whitehall. 1803. Demy 4to, First Edition; pp. [iv](title & dedication, versos blank), [ii](List of Encouragers), [viii](Contents, last Erratum & Directions to the Binder), [v]-xxvi(An Account of the Origin of Sliding Keels), [ii](blank), 196(last blank); large folding plan of the sliding keels, folding chart, 1 coloured & 5 b/w. plates, appendix; neatly recased in original papered boards (rebacked, with printed paper label in style similar to original, and free endpapers replaced using contemporary paper; spine ends a little worn); entirely uncut and unopened; an exceptionally fine & clean copy; rare. London; Printed for T. Egerton; 1803. ****Ferguson 375; Wantrup 75; Hill, page 126. This copy is complete with the rare "List of Encouragers" leaf AND the blank leaf d4, neither mentioned by Ferguson, and one or both not present in most copies. The plates and chart were all engraved by S. I. Neele, 352 Strand and it seems that the work was not in fact published until 1804 as while the coloured plate of the Crested Cockatoo and the plate of the Lady Nelson in the Thames are dated July 1st, 1803 and the chart is dated Dec. 27th 1803, the remaining plates (except that of the sliding keels which is undated) are all dated Jan. 10th 1804. Never having been rebound, this copy has the plates all together, before the main text, with the result that the fine coloured plate of the Crested Cockatoo which almost invariably has the text offset across it, is here unmarked and in its original glory. The "Lady Nelson" was originally sent out to survey the unknown coasts of New Holland and was later chosen to accompany Matthew Flinders' on his circumnavigation of Australia. She accompanied him when he set off, but her slow sailing meant she was unable to keep up and was forced to turn back when she ran aground off the Queensland coast. The voyage included the first navigation of Bass Strait from West to East. The "Lady Nelson" was an experimental vessel, and her performance was of considerable interest to nautical science. Grant was given command rather than the designer Captain Schanck, as it was thought that the experiment would be given a fairer trial. The sliding keels did not, however, make the impact expected in spite of the advantage they presented for surveying in shallow waters.* #21808

London; Law & Whittaker; 1818. ****Ferguson 728; Du Rietz 1188 "this edition [revised and extended] is the best (and apparently also the rarest) of the three English editions."* We are disposed to dispute Du Rietz's claim as to rarity, the First Edition, printed in Taunton, being the rarest in our experience, but all editions are rare. The Briton visited several places on the South American coast, but was ordered from Brazil to find the American frigate, U.S.S. Essex, Captain David Porter, which was threatening British whalers in the Pacific. Details of the activities of U.S.S. Essex in the Marquesas are related. - 65 **Walter, Richard** [& **Robins, Benjamin**]. **A VOYAGE ROUND THE WORLD**, In the Years MDCCXL, I, II, III, IV. By George Anson, Esq; Commander in Chief of a Squadron of His Majesty's Ships, sent upon an Expedition to the South-Seas. Compiled From Papers and other Materials of the Right Honourable George Lord Anson, and published under his Direction, by Richard Walter, M.A. Chaplain of his Majesty's Ship the Centurion, in that Expedition. Illustrated with Forty-Two Copper-Plates. London: Printed for the Author; By John and Paul Knapton, in Ludgate-Street. MDCCXLVIII. Thick Royal 4to, First Large Paper Issue of First Edition; pp. [vi], [xii](list of Subscribers), [xvi](Contents & Introduction), 418(last blank), [2](Directions to the Binder); 12 folding charts, 2 folding plans, 28 folding plates; original roan-backed marbled boards; (joints cracked, but cords firm; boards very slightly rubbed; spine ends worn with small portion missing from foot); ENTIRELY UNCU, AS ISSUED; a very fine, clean and crisp copy; EXTREMELY RARE in such condition. Printed for the Author; by John & Paul Knapton; 1748. ****Tew I, noting (in an unpublished bibliography) that this Royal Paper issue is very rarely found. As for the standard issue on demy paper the earliest issues of the First Edition were published without the world chart which was not done until later issues. While Lord Anson's own copy (and some others) do have the world chart, most copies of the First Edition (on both sizes of paper) are without it and it is not included in the list of charts and plates. This copy is entirely undisturbed in its original binding and clearly never had the world chart. Page 319 is misnumbered 219 as in the standard issue. There is a contemporary Ms. correction on page 14, and contemporary inked initials on the title page - E. H. - suggesting that this copy belonged either to Sir Edward Hawke (Vice-Admiral of the Blue) or to Edward Hooper, as these are the only two subscribers with these initials. There are 373 subscribers to this, the Royal Paper edition and very, very few copies will have survived in their original publisher's binding as here. This Royal Paper issue is truly a magnificent production with generous margins and thicker, superior paper. While not a particularly uncommon title, copies of the Royal Paper issue, entirely undisturbed, are of extreme rarity. This, the official account of the famous voyage, was immediately immensely popular, and ran to many editions. The list of subscribers to the First Edition occupies 12 pages, closely set in three columns to the page. Many of the illustrations are from drawings by Lieutenant PIERCY BRETT, who was placed in command of the captured Manila galleon, and who also contributed to the relation of the voyage. The expedition was considered a successful venture owing to the capture of the richly laden Manila galleon, but over 1000 lives were lost and out of seven vessels only the flagship Centurion returned. The contribution to geographical knowledge was negligible. Renard 1669 (THIS copy). #41035 A\$27,500.00*

Compiled from his papers and materials, by Richard Walter, M.A. Chaplain of the Ship the Centurion, in that Expedition. Vol. I [II]. Edinburgh: Printed for Alex. Lawrie and Co. 1804. 2 vols., post 12mo; Vol. I, pp. vi, 212; Vol. II, pp. [iii]-vi (but apparently quite complete, as issued), 246 (last blank); contemporary full mottled sheep (a little rubbed); a very good, clean set; scarce. Edinburgh; Alex Lawrie & Co.; 1804. ****The expedition was considered a successful venture owing to the capture of the richly laden Manila galleon, but over 1000 lives were lost and out of seven vessels only the flagship Centurion returned.
