Westminster Edition; pp. [iv](binder's blanks), [ii], vi, 326, [2](blank), [4](binder's blanks); gravure frontispiece, with title-guard, 15 text figures, index; title-page in red & black; original half morocco, with cloth sides, spine gilt in panels, with raised bands, marbled endpapers; top edge gilt, others uncut; a fine copy; very scarce. New York and London; D. Appleton and Company; N.D. [c. 1900]. \*\*\**Freeman 1387. With Authorized Edition stated on title-verso. Entirely reset (and quite different from other so-called Authorized Edition copies), apparently without the additions of Francis Darwin. The frontispiece is a fine view of Darwin's study. A very handsome edition, limited to 1000 numbered copies, this appears to be one of a smaller number specially bound for Brentano's, N.Y., most copies being issued in red cloth.* #66847

The first leaf of the advertisements describes "The Minerva Library (New Series.) Large Crown 8vo, art linen, extra gilt, fully illustrated, 2s." and Volume II in the series is this work. This volume however has a variant binding, and the three-quarter portrait of Darwin in the regular series has been replaced by a portrait of Darwin standing from the painting by Sir J. Collier in the National Portrait Gallery. We hazard a guess that this is a somewhat later publication (concurring with Freeman). The biographical introduction is by G. T. [*bound with*] [Vol. II]. **A MONOGRAPH ON THE FOSSIL BALANIDAE AND VERRUCIDAE OF GREAT BRITAIN.** 4to, First Edition; pp. [vi](series title, title-page, and Preface), 44, [4](2 leaves of descriptions one before each plate); 2 plates, 8 text illu. Together in half calf, with marbled sides & early marbled wrappers bound in; a very good copy; very scarce. London; Printed for the Palaeontographical Society; 1851-54. \*\*\**Freeman 342. A duplicate from the Bibliotheque Universitaire, Bordeaux, with stamp on title-pages, in the bottom margin of plates and in margins of a few text pages. The two parts were published as monographs in the Palaeontographical Society's series. The Index to Volume II is not present; it was apparently overlooked and was not published until 1858, when it appeared as a single leaf. The collation of this copy differs slightly from Freeman's in which no mention is made of the final leaf in Volume I, and which gives only pp. [iv] for the preliminaries to Volume II. As Freeman notes, a complete set of the Palaeontographical Society's monograph volumes appeared in facsimile in 1966, but Darwin's work was not available alone.* #66799 **A\$1850.00**

- 71 **Freke, H. ON THE ORIGIN OF SPECIES BY MEANS OF ORGANIC AFFINITY:** First Edition; pp. [viii], 136(last blank); folding table; original semi-limp cloth (rebacked, preserving original endpapers; a few light pencil marks); a very good copy; very rare. London; Longmans and Co.; 1861. *\*\*\*Freke independently arrived at the conclusion that all living beings are descended from one primordial form, a doctrine he first propounded in the 'Dublin Medical Press' in 1851. However his grounds of belief and treatment of the subject were, as Darwin remarked in his 'Historical Sketch' to the sixth edition of his 'Origin of Species', "wholly different from mine; but as Dr. Freke has now (1861) published his Essay ... the difficult attempt to give any idea of his views would be superfluous on my part." This copy with the signature of the original owner ("G. H. Batten") on title-page, and a double-sided leaf of closely written notes on (Erasmus) Darwin, Locke, Descartes, etc. in the same hand loosely inserted.* #66746 **A\$550.00**

Third Edition, with Additions and Corrections. (Seventh Thousand.) London: John Murray, Albemarle Street. 1861. Cr. 8vo, Third Edition; pp. xx, 538+[2](adv.); folding diagram, index; original cloth, blind-stamped boards & spine gilt; light brown chalk-surfaced endpapers; binder's ticket of Edmonds & Remnants at bottom of rear pastedown; entirely uncut; (neat signature of original owner "William McHay" on half-title); a very nice, sound & clean copy; rare. London; John Murray; 1861. *\*\*\*Freeman 381, variant a. Considerably rarer on the market than the first, second, fifth, or sixth editions, this edition contains the two-page Additions and Corrections, to the Second and Third Editions, and for the first time, the full 6-1/2-page Historical Sketch (it having appeared in preliminary form in a U.S. edition of 1860 and a Stuttgart edition, in translation, of the same year).* #66436 **A\$7500.00**

### THE FINAL DEFINITIVE TEXT

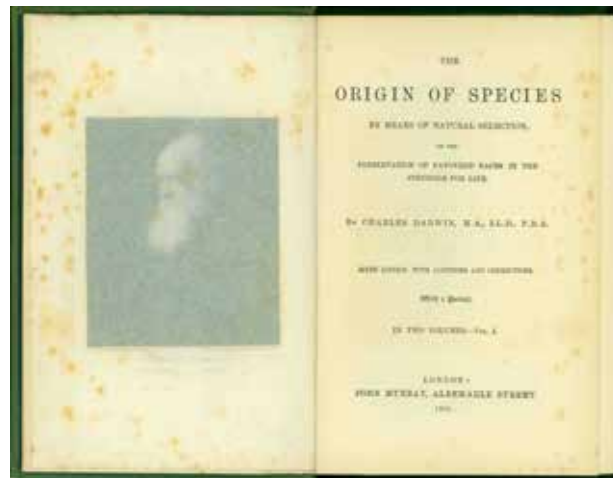

- 73 **Darwin, Charles.** **THE ORIGIN OF SPECIES** by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. By Charles Darwin, M.A., LL.D., F.R.S., etc. Sixth Edition, with Additions and Corrections to 1872. (Twentieth Thousand). London: John Murray, Albemarle Street. 1878. The right of Translation is reserved. Cr. 8vo, Sixth Edition, Seventh Issue; pp. xxii, 458; folding diagram, glossary, index; original green cloth, with binder's ticket of W. Bone & Son on rear pastedown; a nice copy; very scarce. London; John Murray; 1878. \*\*\**Freeman 403. Printed from stereotypes of the eleventh thousand, and the second issue of the final definitive text, Darwin having made some very minor corrections to the eighteenth thousand (vide Freeman). This Sixth edition, the last to be fully revised by Darwin and quite extensively re-written, includes a new chapter in refutation of objections to his theory, especially those of St. George Mivart, the Roman Catholic biologist. The Sixth was also the first edition to drop the word 'ON' from the title and the first edition of the 'Origin' to use the word 'evolution'. The Glossary was compiled by W. S. Dallas at Darwin's request.* #66444 **A\$950.00**

- 74 **Darwin, Charles.** **THE ORIGIN OF SPECIES** by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. By Charles Darwin, M.A., LL.D., F.R.S., etc. Sixth Edition, with Additions and Corrections to 1872. (Thirty-fifth Thousand). London: John Murray, Albemarle Street. 1888. Cr. 8vo, Sixth Edition, later issue; pp. [ii], xxii, 458, 32(inserted adv., dated September, 1888); folding diagram, glossary, index; original green cloth; (name on half-title & bookplate on endpaper); a nice copy; very scarce. London; John Murray; 1888. *\*\*\*Freeman 424. The Sixth Edition was the final edition extensively edited by Darwin and the first edition to drop the word 'ON' from the title and the first edition of the 'Origin' to use the word 'evolution'. The Glossary was compiled by W. S. Dallas at Darwin's request.* #66448 **A\$550.00**

- 75 **Darwin, Charles. THE ORIGIN OF SPECIES** by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. By Charles Darwin, M.A., LL.D., F.R.S., etc. Sixth Edition, with Additions and Corrections. With a Portrait. In two volumes.—Vol. I [II]. London: John Murray, Albemarle Street. 1891. Cr. 8vo, Sixth Edition, Second Issue of Library Edition; Vol. I, pp. [ii], xxvi, 366, [2](adv., verso blank); portrait frontispiece (with tissue-guard), folding diagram; Vol. II, pp. vi, 340; glossary, index; original grey-green cloth; original navy blue chalk-surfaced endpapers; (spines a little dull & ends slightly worn; a little foxing at start of first volume); a nice set; very scarce. London; John Murray; 1891. *\*\*\*Freeman 437. The Sixth Edition was the final edition extensively edited by Darwin and the first edition to drop the word 'ON' from the title and the first edition of the 'Origin' to use the word 'evolution'. The Glossary was compiled by W. S. Dallas at Darwin's request. This two-volume edition, the second in this form, it having first been issued in 1888 (Freeman 422) as the 'Library Edition', is a handsome work, with larger type and printed on thicker paper. The title-pages to this set are cancels, suggesting it may simply be a re-issue of the 1888 edition, and there is no indication of a 'Library Edition' as such, however the word 'indigeens' in Chapter IV has been corrected to 'indigenes' and the text is clearly printed from stereotypes, at least in part, so the reason for the cancels is somewhat obscure, and as such not noted by Freeman. Both of these two-volume issues are very seldom seen on the market, presumably being destined for libraries, and were probably produced in quite limited numbers, this issue having no 'thousand' designation and the original two-volume issue of 1888 sharing the Thirty-third Thousand designation with another one-volume issue having the regular pagination and small type of the one-volume sixth edition. #66452* **A\$850.00**

## NOTICE TO CUSTOMERS:

This is our two hundred and eighteenth short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist.

We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: [books@GastonRenard.com](mailto:books@GastonRenard.com) and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by fax or by post please use the Order Form at end.
