Illustrated with a Map of Australia, and Five Plates. 8vo, First Edition; pp. xxiv, 428, [4](last 3 blank); large folding map, 5 fine and attractive double-page handcoloured aquatint plates, appendix; contemporary half calf and marbled boards, marbled edges and endpapers, spine with raised bands and gilt in compartments, spine label renewed; (binding a little rubbed; some occasional mild marginal foxing); a nice copy; very rare. London; Hurst, Chance, and Co.; 1830. \*\*\**Ferguson, 1379; Wantrup, 117a. An important book, printed in an edition of only 250 copies, this is the most detailed of the proposals for exploration of the Australian interior which was at this stage still virtually unknown. Some optimistic assessments as to the fertility of the interior are combined with detailed suggestions for the equipment and organisation of expeditions and the future of the country. The plates include a proposal for a new flag for New South Wales, a specimen plan for new townships and beautiful illustrations for the conduct of expeditions. A second "edition" comprising the unsold sheets of the First Edition with a new title-page and preface was issued by Smith, Elder in 1836: this is equally rare, no doubt forming part of the total of 250 copies printed.*

This Atlas is the first of the kind ever produced in the colony, and will be thoroughly authentic to date of publication; it will be found eminently useful to the Merchant and Squatter as a Work of Reference, and with the Schoolmaster or Man of Family as the best means extant of furnishing the rising generation of the Colony with a thorough geographical knowledge of South Australia and the Northern Territory. To His Excellency Sir Anthony Musgrave, K.C.M.G., &c., Governor and Commander-in-Chief of the Province of South Australia, This Atlas is, with His Excellency's permission, Respectfully Dedicated, by His Excellency's Most Obedient Servant, the Proprietors, F. London; T. & W. Boone; 1851. \*\*\**Ferguson 9461 (collation inaccurate). With the bookplate of the noted historian, politician and collector, Sir William Stirling (and with a typewritten summary of his life loosely inserted). Erskine, better known for his "Journal of a Cruise among the Islands of the Western Pacific", visited Australia in 1851 and wrote this account of the discovery of gold in New South Wales on his passage back to England. He made a personal excursion to the new discoveries, or diggings, as he refers to them at Summer-hill Creek and the Turon River. His dated notes of this journey form the appendix to this volume which commences with a brief account of the earliest discoveries of the 1820s and earlier, and continues with a detailed account of the discoveries from the late 1840s onwards. The map is adapted from Mitchell's map and information from H.M.S. Acheron and drawn up by Captain John Lort Stokes for the Author. This was the first eyewitness account of the goldfields and is particularly rare in this first edition. A second edition was published in 1852; this is also of considerable rarity.* #16725 **A\$4500.00**

## RARE PACIFIC NARRATIVE

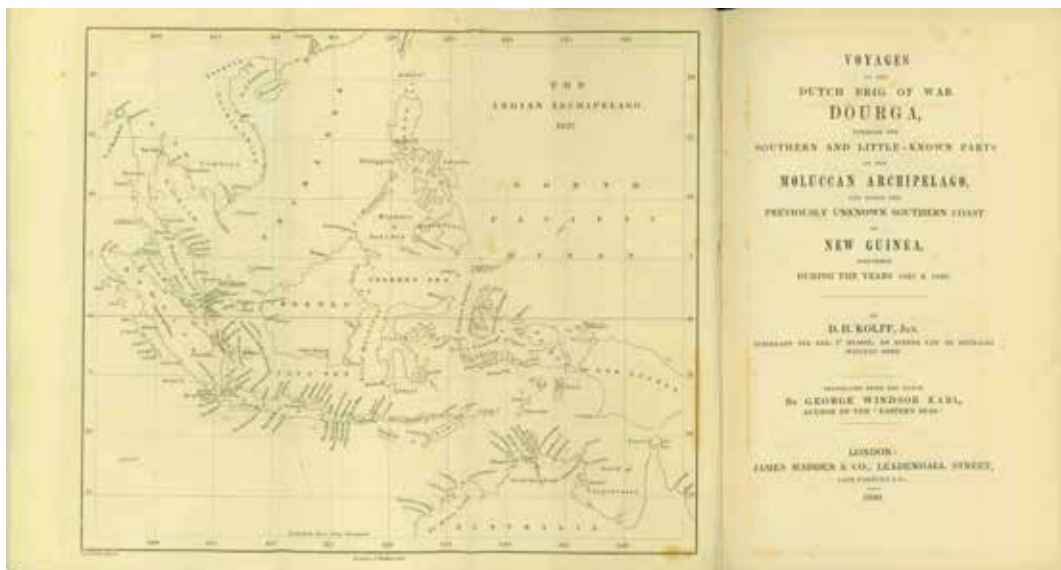

- 96 **Michelena Y Rojas**, Francisco. **VIAJES CIENTIFICOS EN TODO EL MUNDO**, desde 1822 hasta 1842; durante los cuales fueron visitadas la Oceania en sus tres nuevas divisiones geographicas: Malesia, Polynesia y Australia; el Asia y sus grandes regiones: China, India y Arabia; el Africa en lo mas interesante de ella: Cairo, Alejandria, Argel y Tunez; Cuatro veges la Europa en sus Imperios, reinos y ciudades: Inglaterra, Francia, Espana, Italia, Turquia y Grecia, etc.; otras Tantas la America en los principales Estados que la Componen: Canada, Estados Unidos, Mejico, Venezuela, Nueva Granada, Ecuador y Peru, etc. Dedicados A la Nacion Venezolana por Francisco Michelena Y Rojas. Madrid. I. Boix, Editor, calle de carretas, num. 8. MDCCXLIII. Roy. 8vo, First Edition; pp. [ii](blank), 428, [4](index, last blank); portrait frontispiece, a large folding map of the Pacific (a short tear repaired), folding plan of Sydney in 1840, 12 lithographed plates executed by J. Aragon (a small narrow strip torn from blank fore-margin of first plate), Errata, List of Subscribers; a fine copy with only a touch of the foxing usually found; recent half dark red morocco, raised bands on spine, with cloth sides. Madrid; I. Boix; 1843. \*\*\**Ferguson 3697 (2 copies only); Hill 2, 1157; Not in Sabin; O'Reilly-Reitmann 1039; Forbes 1431. Michelena y Rojas was a native of Venezuela and his narrative was printed in Spain for publication in Venezuela by subscription. Ferguson notes erroneously that this work contains accounts of all seven voyages made by the author, but in fact the entire work (apart from a brief note in the Preface) concerns his sixth and most important voyage, one of the rarest and least-known voyages to the Pacific. Departing from Mazatlan, Mexico, Michelena y Rojas crossed the Pacific in the years 1840-41, spending some 33 days exploring the Hawaiian Islands (to which he devotes 4 chapters, including portraits of Kamehameha III and Governor John Adams). From there he sailed to Tahiti, Rotuma and via Norfolk Island to Australia (with a fine plan of Sydney in 1840, a plate of part of the Botanic Gardens and another of the aboriginal inhabitants). He continued to Vanikoro (with an account of Dillon's discovery of the fate of La Perouse), Guam in the Marianas, the Caroline Islands, Philippines, Macao, and Singapore. His route is traced on the folding map and the author includes an account of the Papuans. Some doubt has been cast by Saul H. Riesenber on the authenticity of the narrative but it seems clear that it is an amalgam of personal observation and information from other contemporary sources. Michelena also published (1837) the official account of the Venezuelan exploring expedition up the Orinoco and down the Amazon Rivers, and later wrote a history of South American exploration published in 1867. #34806*
