London; Farrand Press & Private Libraries Association; (1990). *\*\*\*Finely printed from waterless lithographic plates. The invention of lithography by Alois Senefelder in 1796 made possible the production of books without the use of metal or wooden type. It revolutionized publishing, making it possible to reproduce short-hand symbols, calligraphy, facsimiles, maps & military plans, music, accounting tables, and other sorts of hand-drawn material cheaply and efficiently. The result of twenty years of scholarship by Michael Twyman following the 1970 publication of his book, Lithography, 1800-1850 by Oxford University Press, this remarkable book is the first to give a comprehensive history of early books produced by the application of Senefelder's method and in addition to the extensive text, the book features a bibliographic catalogue of over 420 lithographed books from the nineteenth century. Each entry has a full collation, publication price (when available), and other useful annotations. It is the first such catalogue of early lithographed books available and is extremely useful to collectors, booksellers, librarians, and scholars interested in the field. The comprehensive text includes chapters on Lithographic incunables; Military manuals: the presses at Chatham and Metz; The lithographic publications of Sir Thomas Phillipps; Books on accounting and other 'difficult composition'; Music method books; Non-latin scripts; Lithography and phonography: The books of Isaac Pitman; Books with pictures; Reprints of books and facsimiles of old documents; Facsimiles of autographs; and Photolithographed facsimiles and reprints, etc. #36270* **A\$120.00**

## NOTICE TO CUSTOMERS:

This is our two hundred and thirty-third short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist.

We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: [books@GastonRenard.com](mailto:books@GastonRenard.com) and copying and pasting the entries of the items you want from the list above.
