Backhouse was a quaker missionary who arrived in Hobart with George Washington Walker in 1832, spent three years in Van Diemen's Land, and later visited nearly all the scattered Australian settlements. During their travels he made natural history observations and collected a valuable herbarium which was sent to Kew Gardens. Backhouse's medical knowledge also proved very valuable, and he gave much assistance to the sick and wounded in the colonies. In Van Diemen's Land they were granted access by Governor Arthur to all the penal establishments and aboriginal settlements and was encouraged to make observations and suggest improvements. In New South Wales they were encouraged by Governor Bourke to make similar observations and visited and described the penal settlements of Norfolk Island, Moreton Bay and Port Macquarie and the Aboriginal station at Wellington Valley. In 1837 they also visited Melbourne, Adelaide and Perth, all still then in their infancy, promoting temperance and protection of the Aborigines. The extensive appendices include remarks on Judicial Oaths, Indigenous Vegetable Productions of Tasmania, Chain Gangs, Penal Discipline; a letter from a convict; addresses to the prisoner and free populations of the colonies; letters to Governor Bourke on the Aborigines; details of Quaker meetings, etc. #67452* **A\$1100.00**

Robert Jarman, the son of a printer at Beccles, joined the crew as a young man of twenty years on a whaling voyage to the South Seas in 1831. During the next three to four years young Robert's forecastle jottings were transformed into a lively and well-crafted tale. The primary theme is the hard, unrelenting search for whales, reflected in Jarman's methodical recording of encounters with other whalers and elaborated with graphic descriptions of the excitements and dangers of whaling with the inevitable accidents, injuries, and tragic deaths. After cruising the Japan Sea, the ship reached the Hawaiian Islands at the end of October 1832 and anchored at Honolulu. "The author noted 18 whalers in port. He describes the harbor and the method by which ships were towed in, and the Honolulu Fort, and the town and its native people" (Forbes). He tells also of surviving gales and near disaster when the Japan was dismantled in a hurricane, which forced the stricken ship to Sydney for extensive repairs. Jarman gives an interesting account of Sydney, with perceptive comments on convicts and their management and the Aborigines and their customs including the use of the boomerang. Subsequently the ship cruised around Rotuma, the Fiji Islands and New Zealand before returning to England. Along the way Jarman gives accounts of visits to bays and islands to trade for fresh provisions, and of longer stays at various ports for wood, water and to benefit the crew. A welcome respite from the rigors and grinding repetition of shipboard life, Jarman was obviously captivated by those of the natives who were friendly, and he perceptively and sympathetically described their modes of life, customs, and the effects of European intercourse and colonization. The scope and appeal of this book is enhanced by some lengthy passages on natural history, including observations on the social behaviour of sperm whales and encounters with sharks, other fish and birds. Because of several chance but pertinent events he was able to include commentaries on several dramatic episodes of Pacific maritime history, such as the Bligh mutiny and its aftermath, and recent massacres of ships crews by islanders -- a constant fear for lightly-armed visiting whalers. #27822 **A\$695.00**

65 **Parkin, Ray. H. M. BARK ENDEAVOUR.** Her place in Australian History. (Melbourne); The Miegunyah Press; (1997). ****First Edition, limited to 1000 copies for sale, and a superior production to any subsequent printings. Number Thirteen in the second Miegunyah Press series. A magnificent production; a long-overdue detailed analysis of Captain James Cook's ship, fully placed in the context of her time. The "Endeavour" is one of the most famous ships in maritime history, yet surprisingly few details of her were known to any but a small number of maritime historians. More than twenty-five years before publication of this book, Ray Parkin, seaman, author and artist was amazed to find how little was known and recorded of this ship, and set out to document everything he could discover. His researches were encouraged by that renowned scholar and chronicler of James Cook, Professor J. C. Beaglehole. The result is the most painstaking study of the "Endeavour" yet undertaken and a unique account of a great voyage of discovery: the passage of the "Endeavour" up the east coast of Australia (then called New Holland) in the year 1770. Written for the scholar, mariner and layperson alike, Ray Parkin has recreated for the reader the very "experience" of being on board H. M. Bark "Endeavour". With meticulous research, he reveals what she looked like, how she sailed, how she smelled; all aspects of daily life on board. No part of the ship or her functioning is too insignificant for his enquiries. How many strands of yarn were there in the ships cable? (954) Did the ship have a lightning conductor? (Yes) What was the diameter of the main mast? (21 inches). The work is divided into two sections: Part I, The World of the Ship, details the sailor and his environment, the Captain, the ship herself, scurvy and provisioning, the ship's company, and remarks on individuals come to notice through misfortune or by their sins and adventures. The text is accompanied by a series of plans and figures depicting the ship's architecture and construction, her deck plan, rigging, sails, armament, boats, cables, anchors and accommodation. Fifteen of these are reproduced as large folding full-size sketches in the accompanying folding case. Part II, The Voyage (up the east coast of Australia), is a masterly synthesis of the Ships Log and the journals of James Cook, Sydney Parkinson and Joseph Banks, supplemented where illuminating and appropriate, by extracts from the journals of other members of the ship's complement, and with an interpretive commentary and clearly drawn explanatory charts. The Author, Ray Parkin, was born in Melbourne and joined the Royal Australian Navy in 1928, spending eighteen years in the service. He was on board HMAS "Perth" in 1942 when the cruiser was sunk in Sunda Strait, killing two thirds of her complement. After the sinking Mr Parkin spent three and a half years as a Japanese prisoner of war in Java, on the Burma-Siam railway and in coal mines in Japan. His vivid accounts of these experiences in World War II were published by the Hogarth Press: "Out of the Smoke" (1960), "Into the Smother" (1963), and "The Sword and the Blossom" (1967). At the end of the war Mr Parkin completed a fine arts course. He worked on the Melbourne waterfront until his retirement in 1975 when he went to London to continue his research on the "Endeavour". "H. M. Bark Endeavour", is an absorbing book: discursive, erudite, at times poetic; full of wisdom, insight and information. It is an ESSENTIAL companion and supplement to the standard works on Cook's voyages. Sadly, Ray Parkin died in May, 2005. #49819*

NOTICE TO CUSTOMERS:

This is our two hundred and thirty-seventh short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist.

We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: books@GastonRenard.com and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by fax or by post please use the Order Form at end.
