The text is a remarkable exercise in self-congratulation and blame avoidance, larded with expressions such as "crowned with success as regards the extent and value of country explored", "the glorious achievements", &c., but is nevertheless a useful record of the expedition and the efforts made in search of the explorers by Commander Norman, Landsborough, McKinlay, Howitt and others.* #67542 **AS\$450.00**

THE FINAL AND ONLY COMPLETE VERSION

- 16 **Burke & Wills: PROGRESS REPORTS AND FINAL REPORT OF THE EXPLORATION COMMITTEE** of the Royal Society of Victoria, 1863. Royal Society, Melbourne, 20th August, 1863 [but 1873, see below]. F^{cap} folio, First and only Complete Edition; pp. [ii](letter of transmission from John Macadam, verso blank), [ii](title, verso blank), [ii](second title, with list of officers & members of the Committee, verso blank), 8(First Report of the Exploration Committee of the Royal Society of Victoria (then the Philosophical Institute of Victoria). [text follows]), 4(Second Report), 2(Third Report), 6(Fourth Report, last blank), 4(Special Report of the Exploration Fund Committee for 1859, last blank), 4(Fifth Progress Report of the Exploration Committee of the Royal Society of Victoria for 1860, last blank), 8(Sixth Progress Report ... for 1861, last blank), 6(Seventh and Final Report ... for 1863, last blank), 6(Appendix I, last blank), 8(Appendix II); 16(Supplementary Final Report, last 3 blank); original quarter dark blue-green wave-embossed cloth, light blue-green printed papered boards, cut flush; but for some very minor soiling of the papered boards, a fine copy; extremely rare. Melbourne; Royal Society of Victoria; 1872 [1873]. ****Ferguson 15185 (Mitchell Library copy only, with no mention of binding and miscollated); see also Renard, Fox Collection 2183 (first issue 1863); McLaren 5530 et seq. (but all his entries are unsatisfactory); and Wantrup: Catalogue of the Davidson Collection (Part 3) 475 (a variant copy in special binding with the final leaves on white paper, see below). All pages are printed on blue paper, and the printer's colophon "MASON AND FIRTH, PRINTERS, MELBOURNE." appears only at the foot of the last page of Appendix II. The signatures (first 5 leaves unsigned, B1-4, C1-4, D1-4, E1-4, F1-2, G1-4, H1-4, last 8 leaves unsigned) and unity of appearance would seem to leave little doubt that the whole, excepting the final 16 leaves, was printed by Mason and Firth. Ferguson mentions a Supplementary Final*

Report of eight pages printed on white paper. In this copy however, these pages are printed on blue laid paper, closely matching the blue wove paper of the earlier reports, the last blank, with the date Melbourne, 19th November, 1872 completing the report by William F. Stawell at the foot of Page 7. This is followed by a further 8 pages numbered 9-11 plus 2 unnumbered and 3 blank; these contain a List of Subscribers to the Exploration Fund, 3 pp., plus Balance Sheet and Summary of Expenditure, dated at end [Page 13] Melbourne, 7th July, 1873, and with the printer's colophon at foot: STILLWELL AND KNIGHT, PRINTERS, COLLINS STREET EAST. The cover title reads identically to the title quoted above except for the date, which is 1872, but clearly this is a later, and final (final, final!) issue. This is an original binding, completely undisturbed, with the endpapers of blue laid paper similar to that used for the 16-page Supplementary Final Report, but with the chain lines running horizontally. Apart from the Supplementary Final Report the collation of this copy agrees exactly with Ferguson (but for the interleaves, these obviously added, perhaps only to some issues). The front board carries a complete duplication of the (first) title as transcribed above (that which Ferguson calls the "short title"), but for the date 1872. On Page 7 of the Supplementary Final Report it is stated that about 200 copies of the seven previous reports are [still] available and it is resolved to publish this "final Supplementary Report" bound up in one volume with these previous reports for distribution to public institutions in the colony and elsewhere. This must place an upper limit on the number of complete copies produced. Some copies are recorded with the final supplement printed on white paper, and several with varying lesser numbers of leaves to it. The configuration of this copy must however be the complete and final version, the care taken to match the paper and the unity of appearance and presence of the integral final blank surely signifying the intended finale to the whole sorry saga. It is noted at the foot of Page 7 that the last act of the Committee "has been to hand over to the Public Library and the Royal Society all their papers and documents, carefully secured in a suitable box." #16383 **A\$12,500.00**

Melbourne; Edition Renard; 2009. ****Deluxe limited edition of 70 numbered copies within the overall limitation of 200 copies for sale. A new edition of the very rare account first published in two issues in 1838 and until now never reprinted - see Forbes 1104, also Bagnall 2685 and Ferguson 2526 (and 2526a). Robert Jarman, the son of a printer at Beccles, joined the crew as a young man of twenty years on a whaling voyage to the South Seas in 1831. During the next three to four years young Robert's forecastle jottings were transformed into a lively and well-crafted tale. The primary theme is the hard, unrelenting search for whales, reflected in Jarman's methodical recording of encounters with other whalers and elaborated with graphic descriptions of the excitements and dangers of whaling with the inevitable accidents, injuries, and tragic deaths. After cruising the Japan Sea, the ship reached the Hawaiian Islands at the end of October 1832 and anchored at Honolulu. "The author noted 18 whalers in port. He describes the harbor and the method by which ships were towed in, and the Honolulu Fort, and the town and its native people" (Forbes). He tells also of surviving gales and near disaster when the Japan was dismantled in a hurricane, which forced the stricken ship to Sydney for extensive repairs. Jarman gives an interesting account of Sydney, with perceptive comments on convicts and their management and the Aborigines and their customs including the use of the boomerang. Subsequently the ship cruised around Rotuma, the Fiji Islands and New Zealand before returning to England. Along the way Jarman gives accounts of visits to bays and islands to trade for fresh provisions, and of longer stays at various ports for wood, water and to benefit the crew. A welcome respite from the rigors and grinding repetition of shipboard life, Jarman was obviously captivated by those of the natives who were friendly, and he perceptively and sympathetically described their modes of life, customs, and the effects of European intercourse and colonization. The scope and appeal of this book is enhanced by some lengthy passages on natural history, including observations on the social behaviour of sperm whales and encounters with sharks, other fish and birds. Because of several chance but pertinent events he was able to include commentaries on several dramatic episodes of Pacific maritime history, such as the Bligh mutiny and its aftermath, and recent massacres of ships crews by islanders — a constant fear for lightly-armed visiting whalers. #27823* **A\$325.00**

83 **Walter**, Richard [& **Robins**, Benjamin]. **A VOYAGE ROUND THE WORLD**, In the Years MDCCXL, I, II, III, IV. By George Anson, Esq; Commander in Chief of a Squadron of His Majesty's Ships, sent upon an Expedition to the South-Seas. Compiled From Papers and other Materials of the Right Honourable George Lord Anson, and published under his Direction, by Richard Walter, M.A. Chaplain of his Majesty's Ship the Centurion, in that Expedition. Illustrated with Forty-Two Copper-Plates. London: Printed for the Author; By John and Paul Knapton, in Ludgate-Street. MDCCXLVIII. Thick Royal 4to, First Large Paper Issue of First Edition; pp. [vi], [xii](list of Subscribers), [xvi](Contents & Introduction), 418(last blank), [2] (Directions to the Binder); 12 folding charts, 2 folding plans, 28 folding plates; original roan-backed marbled boards; (joints cracked, but cords firm; boards very slightly rubbed; spine ends worn with small portion missing from foot); ENTIRELY UNCUT, AS ISSUED; a very fine, clean and crisp copy; EXTREMELY RARE in such condition. Printed for the Author; by John & Paul Knapton; 1748. ****Tew 1, noting (in an unpublished bibliography) that this Royal Paper issue is very rarely found. As with the standard issue on demy paper the earliest issues of the First Edition were published without the world chart which was not done until later issues. While Lord Anson's own copy (and some others) do have the world chart, most copies of the First Edition (on both sizes of paper) are*

without it and it is not included in the list of charts and plates. This copy is entirely undisturbed in its original binding and clearly never had the world chart. Page 319 is misnumbered 219 as in the standard issue. There is a contemporary Ms. correction on page 14, and contemporary inked initials on the title page - E. H. - suggesting that this copy belonged either to Sir Edward Hawke (Vice-Admiral of the Blue) or to Edward Hooper, as these are the only two subscribers with these initials. There are 373 subscribers to this, the Royal Paper edition and very, very few copies will have survived in their original publisher's binding as here. This Royal Paper issue is truly a magnificent production with generous margins and thicker, superior paper. While not a particularly uncommon title, copies of the Royal Paper issue, entirely undisturbed, are of extreme rarity. This, the official account of the famous voyage, was immediately immensely popular, and ran to many editions. The list of subscribers to the First Edition occupies 12 pages, closely set in three columns to the page. Many of the illustrations are from drawings by Lieutenant PIERCY BRETT, who was placed in command of the captured Manila galleon, and who also contributed to the relation of the voyage. The expedition was considered a successful venture owing to the capture of the richly laden Manila galleon, but over 1000 lives were lost and out of seven vessels only the flagship Centurion returned. The contribution to geographical knowledge was negligible. Renard 1669 (THIS copy). #41035

Compiled from his papers and materials, by Richard Walter, M.A. Chaplain of the Ship the Centurion, in that Expedition. Vol. I [II]. Edinburgh: Printed for Alex. Lawrie and Co. 1804. 2 vols., post 12mo; Vol. I, pp. vi, 212; Vol. II, pp. [iii]-vi (but apparently quite complete, as issued), 246 (last blank); contemporary full mottled sheep (a little rubbed); a very good, clean set; scarce. Edinburgh; Alex Lawrie & Co.; 1804. ****The expedition was considered a successful venture owing to the capture of the richly laden Manila galleon, but over 1000 lives were lost and out of seven vessels only the flagship Centurion returned. The contribution to geographical knowledge was negligible. An attractive example of one of the many editions of this much reprinted book.* #12810 **A\$450.00**
