[Volume IV] **1850 TO 1940. Continental Exploration**. A comprehensive reference guide . . . in Africa, Asia, Australia and the Americas from 1850 to the early decades of the twentieth century. Pp. xii, 1048(last blank); numerous bibliogs., index of persons, index of regional articles. *[with]*

[Volume V] **Invented and apocryphal narratives of travel**. A comprehensive guide to invented, imaginary, apocryphal and plagiarized narratives of travel by land, sea and air, from the earliest times to the twentieth century. Pp. xii, 548(last 5 blank); numerous bibliogs., index of books, index of imaginary places, index of names. Together, 5 volumes, demy 4to, all First Editions in original cloth, gilt; each volume with multiple marker ribbons; a fine complete set in dustwrappers. (Potts Point); Hordern House; (2003-04-06-08-13). ****An ESSENTIAL reference for anyone interested in exploration, this remarkable work contains over 4500 major entries and index entries covering about 20,000 names of persons or ships noted in the text. The articles cover major expeditions, explorations, voyages and travels from the earliest recorded antiquity to 1940. There is extensive biographical information on the travellers themselves as well as their historical background. The text is fully cross-referenced with many thousands of references between articles. In addition, each article contains a bibliography of both primary and secondary sources (in many cases quite extensive) and in all there are nearly 50,000 bibliographical citations. An unexpected final addition to the splendid four-volume work on real voyages and travels, the fifth volume is a comprehensive survey of "the curious but compelling alternative literature of exploration; to imaginary, apocryphal and utopian journeys in fabulous lands; and to the abundance of invented, plagiarized and spoof narratives, many of which were accepted in their time as wholly credible but were nothing more than flights of the imagination, blatant deceptions, or monologues of doubtful authenticity" [dustwrapper blurb]. In our opinion this rather sells many of them short, which the book itself does not! Included are many accounts relating to 'Terra Australias' or to an undiscovered 'Southland'. There is extensive biographical information on the writers and the imaginary travellers as well as their historical background. The text is fully cross-referenced and in addition, as for the first four volumes, each article contains a bibliography of both primary and secondary sources (in many cases quite extensive). Much of the information is here published for the first time in English and there are numerous entries covering obscure but real persons as well as obscure and unnoticed works of fiction which would be extremely difficult to research without this invaluable tool. Originally published at over \$1100, here offered at a bargain price. #67214*

53 [Chambers, Robert]. **EXPLANATIONS:** A Sequel to "Vestiges of the Natural History of Creation." By the Author of that Work. Second Edition. London: John Churchill, Princes Street, Soho. M CCC XLVI. Post 8vo, Second Edition; pp. viii, 206(last blank), 10(adv.); original cloth (marked); uncut; (name stamp on title-page; a few leaves mildly stained); a very good copy; rare. London; John Churchill; [1846]. ****Chambers had planned to respond to criticisms of his work by publishing a series of letters to the 'Times' followed by a pamphlet of a hundred or so pages, however Churchill convinced the anonymous author (through his friend Alexander Ireland) that it should be issued in book form, printed and bound similarly to the original. This was duly issued in 1845, and was followed by this slightly altered version in 1846. By then the fifth edition of 'Vestiges' was ready and the two works were often reviewed together, the publisher going so far as to suggest a combined volume, however his anonymous author pointed out that the arguments were already incorporated in the new edition.*

Cr. 8vo, Second Issue of First Edition; pp. vi, 374, [4](adv.); 7 heliotype plates (3 folding) containing 30 portraits, 21 text illustrations (7 full-page), index; original cloth, uncut; (spine ends lightly worn; rear hinge neatly strengthened); a very good copy; rare. With John Murray (only) in gilt at foot of spine and the front board stamped in black. This second edition was first issued in 1890. One of Darwin's most important works, and of considerable interest in reference to Australia and its native inhabitants—Darwin takes over a page of his introduction to thanking Australian notables for their help—including Dyson Lacy, R.
