Honolulu, Hawaii; Hawaiian Gazette Co., Ltd.; 1917. ****See Hill, Volume II, pages 143 and 414: "The Narrative of English missionary William Ellis is particularly important, as it was the first book written about the Hawaiian islands and the first serious notice of the islands since Captain Cook's discovery of them forty-eight years earlier. It may be called the first scientific book on Hawaii: although its main purpose was to report on mission progress, and Ellis was primarily interested in local manners and traditions, he was sufficiently expansive to include observations on such natural and cultural history topics as volcanoes, antiquities, and the anthropology of the islands." He includes an account of the death of Captain Cook from an eyewitness report of native Hawaiians. This edition is from the considerably enlarged second edition of 1827 (first published 1826) and includes material also from Ellis's Journal of 1825: "This combination constitutes the clearest, most accurate, and detailed account extant of the physical and social conditions existing in Hawaii in 1823." - Hill. Payne, Mews-Gate, Castle-Street. 1799. 2 vols., med. 4to (text), & 1 vol., demy folio (atlas of charts & plates); First 4to (and Best) Edition in English; Vol. I, pp. [viii], lvi (Introduction by the Editor & Contents), 540 (last blank); Vol. II, pp. viii, 532 (last blank - see footnote re collation); [14] (index), [2] (Errata to both vols., verso blank); Atlas, pp. [iv] comprising engraved decorated title-page (verso blank): "CHARTS AND PLATES TO LA PEROUSE'S VOYAGE. Published as the Act directs Novr. First. 1798, by G. G. & J. Robinson, Pater-noster Row." and DOUBLE-PAGE LIST OF CHARTS AND PLATES, 69 charts & plates, numbered 1 to 69, and comprising 1 large folding World Chart, hand-coloured in outline, 20 double-page & 10 full-page charts, & 38 plates depicting views of places visited, native populations, natural history, coastline views, etc.; (seven of the plates - of which 6 depict native watercraft - carry two illustrations each); text volumes bound in contemporary full rusia with marbled endpapers and gilt dentelles (Volume I neatly rebacked, with original backstrip preserved; joints to Volume II a little worn and front hinge cracked, but cords firm); Atlas bound in half blue morocco with all charts and plates entirely uncut and nice clean impressions; a very nice, generally

clean and crisp set, complete with the very rare list of charts and plates; very scarce. London; G. G. and J. Robinson [etc.]; 1798-99. ***Hill (2nd Edn.), 975; Ferguson 288 (collation most inadequate); Forbes 311; McLaren (Laperouse) 10. In Volume II there is a hiatus in the pagination - Pp. 241-248 are omitted from the pagination, but the text is complete, as examination readily shows, pp. 238-40 & page 249 covering period May 8-20, May 21-June 5 without any gap. There are also in Volume II additional gatherings, marked with asterisk, as follows:- (a) Following page 304 (end of 2Q) additional gathering signed *2Q, paginated *297-304. (b) Following page 312 (end of 2R) additional gathering signed *2R, paginated *305-312. (c) Following page 320 (end of 2S): additional gathering signed *2S, paginated *313-320. These irregularities of pagination are typical of all copies we have seen.

This copy of the Atlas includes the large World Chart (No. 1) often lacking, together with the particularly rare List of the Charts and Plates to the Atlas (of the references consulted only the NMM Catalogue [Volume III, No. 242] and Forbes (311) mention this leaf and the facsimile by Nico Israel does not contain it). Laperouse's voyage with the frigates *Astrolabe* and *Boussole* made valuable contributions to the discovery and exploration of the Pacific and the North West coast of America and the expedition visited numerous islands in the Pacific including Samoa, Tonga and Australia. The scientific contributions in the fields of natural history and anthropology were also of great importance, and the expedition was noteworthy for the scientific experiments undertaken on board, in particular concerning the preservation and sterilisation of drinking water which to some degree anticipated the researches of Pasteur. Despatches were made to France from Kamchatka, whence de Lesseps returned overland, and also from Botany Bay where the expedition arrived within days of the First Fleet. After leaving Botany Bay however both ships disappeared without trace and were not found until 1827 when Peter Dillon discovered the wrecks on the reefs of Vanikoro in the Santa Cruz group. #67358

NOTICE TO CUSTOMERS:

This is our two hundred and eighty-second short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist. We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: books@GastonRenard.com and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by fax or by post please use the Order Form at end.
