The New York Times Jubilee Supplement (1851-1901). Magazine format publication, 16 x 11 1/2 inches, 36 pp, celebrating the first 50 years of The New York Times. The Supplement has been folded horizontally at the middle, causing damage to the cover (5.5 inch repaired tear) and a tear 4 inches in length on pp 1/2 and 6 inches on pp 3/4. Archival tape has been used to mitigate the tears; text is legible in all instances. Front cover detached; the rear cover is missing. Research has established that this cover featured three text-based advertisements: Pears' Soap; United States Life Insurance; Smith Gray & Co. Tailors.

The Supplement features many articles relating to the men (and occasional woman) who shaped The New York Times from its founding in 1851 to the Jubilee celebration of 1901. Early staff members included former employees of the New York Tribune who "resigned their positions to accept better places on The Times," inciting an ongoing antagonism between the two newspapers. Topics in the Supplement relate to Times's coverage of various issues and events, including Anti-Slavery matters; Perils Confronting War Correspondents; the Draft Riots; Reconstruction; the Tilden-Hayes Campaign; the Advent of Sensational Journalism (Pulitzer and the NY World); plus extensive focus on the Tweed Ring: Its Beginnings and Methods--and much more. A fascinating publication recounting the history of The New York Times and stories the newspaper covered, as related by members of the staff. Condition issues noted. $35.00

[51949] DETROIT AIR SHOW) MacGilchrist, J. (color cover illus). Aviation. The Oldest American Aeronautical Magazine. Magazine, 12 x 9 inches; color pictorial cover, pp 1003 to 1238; featuring numerous articles and advertisements with special focus on the Second Annual All-American Aircraft Show, held in Detroit, April 6 to 14, 1929. Thirty-two illustrated pages are devoted to the Aircraft Show, with commentary from a number of exhibitors, including Boeing, Wright, Fairchild, Curtiss and many others. A list of exhibitors (including dealers in Accessories and Equipment) is given at the end of the special Aircraft Show coverage. Time magazine reported in their April 15, 1929 number: "The dusty, musty smell peculiar to large expositions was missing from Detroit's second All-American Aircraft Show last week. Several thousand sightseers and several score actual plane purchasers each day could comfortably inspect 104 plane models, exhibited by 44 oldtime and 16 freshly organized manufactories. Planes ranged from the tricky little Heath at $975, which only the best of pilots dare handle, to the $67,500 Fokker, for which, with its ornate fittings, Cadillac's President Lawrence P. Fisher just paid $75,000. In between were sturdy one and two-seater open cockpit monoplanes and biplanes..." Aviation magazine's coverage of the show is augmented with other articles, including "Promoting Short Hop Business in Southern California." Very good condition. $115.00

[54690] SAILING - MOTORBOAT SHOW NUMBER) Charles F. Chapman, Editor. Motor Boating. The Yachtsmen's Magazine. The magazine's annual (hefty) "New York Motorboat Show Number"; 11 3/4 x 8 1/2 inches; 496 pp; profusely illustrated. A most engaging feature is the copious advertising from major suppliers of boating components and accessories as well as from manufacturers of all types of watercraft, from one-person runabouts to expensive and lavishly outfitted yachts. Articles are featured on numerous aspects of boating ("Practical Knots and Splices," "Corsair Cruisers and Cruisaders," "Improved Sea Sleds," "Boating on Arctic Waterways") and much much more. Manufacturers represented include Gar Wood, American Car and Foundry Company (ACF), Dodge, and many more. Also included is an extensive listing of "used" yachts and smaller craft. Publication in very good clean condition; modest paper loss to spine, abrasions to rear cover. Overall excellent condition.

An uncommon vintage publication, replete with all manner of costly recreational watercraft with page after page of illustrated advertising featuring options in engines and accessories. The publishers were no doubt oblivious to the impending economic collapse - October 24, 1929 - an upheaval that would plunge the country into the long-lasting Depression of the 1930s. Yachts of the financially strapped were to hit the market - at give-away prices - as the economy tanked. The magazine, in its lavish display of costly inventory, is indicative of the bubble that would soon burst. $185.00
