8  Angas, George French.  **SOUTH AUSTRALIA ILLUSTRATED.**  Impl. folio, First Edition; pp. [2](colour-illustrated lithographed title, dated 1846, verso blank), [2](typeset title-page dated 1847, verso blank), [2] (calligraphic litho-engraved Dedication to Queen Adelaide, verso blank), [iii]-iv(List of Subscribers), [4](Preface & General Remarks on the Aboriginal Inhabitants of South Australia); 60 superb hand-coloured litho plates, each with facing leaf of descriptive text (Plate 27 with 2 leaves); finely bound in half green morocco with marbled sides, with matching fitted slipcase by Aquarius; (small, unobtrusive stamp of the Zoological Society almost invisibly erased from two early leaves and present on a third; a few leaves with the faintest browning of extreme margins only); an exceptionally fine, unusually clean copy, the colours brilliant & full, with no sign of fading; rare.  London; Thomas M’Lean; 1846-47.  ***A most attractive copy, both externally and internally, and one of the two outstanding substantial collections of early coloured views of Australia (the other being Joseph Lycett’s Views in Australia, 1824-5), the work contains 41 fine topographical views (on 37 plates), of various parts of South Australia, 19 plates of the Aboriginal inhabitants, their dwellings and artefacts, 3 plates of insects and one of South Australian botany.  A new species of Kangaroo is shown on one of the plates.  The work is of great importance as a contemporary record of South Australia for, as the Author states in his Preface, “With the hope of preserving time and life-like records of men and scenes, so quickly passing away, I have endeavoured by pictorial representation, to describe the most interesting and peculiar features of South Australia and its Aboriginal inhabitants.  I have devoted my time and powers entirely to the accomplishment of this task, visiting all portions of the Colony, and making myself conversant with the manners and habits of native tribes whose existence is unknown to the world”.  The information portrayed on the Aborigines is particularly valuable.  Two of the plates are by S. T. Gill - the view of Adelaide and that showing the Departure of Captain Sturt, August 1844, on the Central Australian Expedition - these are particularly fine early views of the city - and have been sold separately for astronomical figures.  #14526

[monogram] London: Printed for Alex. Hogg, at the Original King’s Arms, No. 16, Pater-Noster-Row. Cr. folio; pp. iv, [5]-656(last unnumbered), [4](List of Subscribers); folding chart of the world and 156 full-page charts and plates agreeing exactly with the list at end; full contemporary calf (expertly re-jointed & with minor repairs to extremities; the folding chart with some neat tissue repairs & re-folded; about a dozen plates with neat marginal repairs; all plates & charts with imprints and captions entire with the sole exception of the plate at Page 640 which has the caption just shaved); an unusually good, and quite complete, copy of a book very difficult to obtain in fine, complete condition. London; Printed for Alex. Hogg; N.D. [c. 1786].

***In addition to Cook’s voyages, the work contains (between the accounts of the second and third voyages), accounts of the voyages of Byron (pp. 215-252), Wallis (pp. 252-274), Carteret (pp. 275-314), Phipps (pp. 315-335), Anson (pp. 336-370) and Drake (pp. 371-398). See Beddie 17-19; Hill, pages 5-6 (No. 18 in the second edition); Forbes 61. This copy appears to conform most closely to Beddie 19 and to Forbes 61 State II. The work, first issued or commenced in 1784, was reissued many times over a period of over 20 years and many minor differences are found between copies including the precise wording of the title-page and some variation in the number of listed maps and plates. In addition many copies seem to have been issued (or compiled) without the full complement of illustrations, up to a dozen or so being often lacking. As advertised by the publisher at the foot of Page 655, it was available both in 80 sixpenny parts or as a complete volume bound in full calf. In this copy, the list of illustrations on Page [656] lists 157 charts and plates in total - these are all present and are placed throughout at the appropriate locations (plus or minus a page) with the sole exception of the plate specified for Page 230 which is instead at Page 136. In addition this copy contains the four-page List of Subscribers, rarely present. Beddie 19 refers to a copy with the frontispiece dated 1781, which on first examination appears to be also the case with this copy, but we believe the date is in fact 1784 (as noted by Forbes - State II), with the digit 4 imperfectly printed. #33081

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also.
