Cook, Captain James. **A VOYAGE TO THE PACIFIC OCEAN.** Undertaken by the Command of His Majesty, for making Discoveries in the Northern Hemisphere. Performed under the Direction of Captains Cook, Clerke, and Gore, in His Majesty’s Ships the Resolution and Discovery; in the Years 1776, 1777, 1778, 1779, and 1780. In three volumes. Vol. I. and II. written by Captain James Cook, F.R.S. Vol. III. by Captain James King, LL.D. and F.R.S. Published by Order of the Lords Commissioners of the Admiralty. The Third Edition. London: Printed by H. Hughes, for G. Nicol, Bookseller to His Majesty, in the Strand; and T. Cadell, in the Strand. M.DCC.LXXXV. 3 vols., med. 4to, Third Edition; Vol. I, pp. [x](title, verso blank, & Contents), xcvi(Preface & List of Plates), 422(last blank); 7 charts & views (5 folding); Vol. II, pp. [ii](title, verso blank), [xii] (Contents), 548; 11 charts & plates (6 folding); Vol. III, pp. [ii](title, verso blank), [xii](Contents, last blank), 556, 557-564(A Defence of the Arguments advanced in the Introduction to Captain Cook’s last Voyage, against the existence of Cape Circumcision); 6 charts & profiles (2 folding), full-page table of bank capital facing page 286, folding comparative table of languages, 7 appendices (Pp. 489-556); contemporary full tree calf; (Vol. I, expertly rebacked with original backstrip preserved & new endpapers, with title-page & following leaf in Volume I repaired at inner margin and resized; following 5 or six leaves a little stained in inner margin; last leaf in Vol. I also resized; one chart in Vol. III repaired in inner margin; a couple of expert restorations to leather); notwithstanding these essentially minor defects, a very nice, clean set. London; Printed by H. Hughes; 1785. ***Without the folio Atlas, issued separately. See Holmes 47; Beddie 1553; Forbes 86. The "Defence of the Arguments..." which is by William Wales, appears for the first time in this Third Edition which is in other respects closely similar to the second edition of the same year, reset from the first edition of the previous year, both sold out within days of publication. Forbes, whose collations are meticulous, makes no mention of the table of bank capital ("Corrected to the 5th of January, 1786") opposite page 286, and there seems no obvious reason for its inclusion, except for references to South Sea stock. The table is headed "(To face Page 286."); but it seems likely that this is an accidental inclusion from another contemporary publication: it has clearly been present in this copy since its original collation. This edition, the last of the original quarto editions, is valuable for the addition of the “Defence...” by William Wales. #64850 A$6500.00

[Marra, John]. JOURNAL OF THE RESOLUTION’S VOYAGE, In 1772, 1773, 1774, and 1775. On Discovery to the Southern Hemisphere, by which the Non-Existence of an undiscovered Continent, between the Equator and the 50th Degree of Southern Longitude, is demonstratively proved. Also a Journal of the Adventure’s Voyage, in the Years 1772, 1773, and 1774. With an Account of the Separation of the two Ships, and the most remarkable Incidents that befell each. Interspersed with Historical and Geographical Descriptions of the Islands and Countries discovered in the Course of their respective Voyages. Illustrated with a Chart, in which the Tracks of both Vessels are accurately laid down, and other Cuts. [Edited by D. Henry]. London: Printed for F. Newbery, at the Corner of St. Paul’s Church-Yard. 1775. Facsimile Edition; pp. [ii], xiv, 328, [2](blank); long folding chart, 5 plates; original imitation vellum; a fine copy; scarce. Amsterdam; N. Israel; 1967. ***Bibliotheca Australiana No. 15. This was the first published book to contain an account of the Antarctic regions based on actual knowledge. The track chart shows the three points of penetration of the Antarctic circle by the Resolution (the first accompanied by the Adventure - shortly afterwards the ships experienced great difficulty in keeping company due to the icy conditions, and were soon separated by a severe storm) and includes on the third occasion the notation “land seen” although the narrative makes it clear that this was by no means certain. Correspondence between Cook and the Admiralty indicates that the author was the Irishman, John Marra, whom Cook had picked up at Batavia on the Endeavour voyage, and who was gunner’s mate on the Resolution. The work was edited by David Henry, editor and a voluminous contributor to the “Gentleman’s Magazine” for many years, and author/editor of “An Historical Account of all the Voyages round the World”, published in 4 volumes in 1773-4, to which in 1775 was added a fifth volume containing the Resolution voyage (i.e. the present account), and in 1786 a sixth, with an account of Cook’s third voyage (Rickman’s account). Hocken notes that “The preface discloses considerable knowledge of private matters connected with the voyage, and gives an account of the causes which led Mr. Banks and his staff to withdraw in high dudgeon from the expedition at the last moment.” The publication of Marra’s work preceded Cook’s Official Account by at least 18 months. #8236 A$500.00

Together 3 vols. text, 4to, 2-part atlas in 1 vol., royal 4to, and Navigation atlas 1 vol. folio. Paris; Imprimerie Imperiale [et] Royale; 1807-1816. ***See Ferguson 449 (Historique), 536 (navigation atlas) and 603
(navigation text). Both the text and atlas of the Navigation and Geography are very rare and complete sets of the entire work are seldom encountered. The charts in the Atlases (both to the Navigation and to the Partie Historique) are mainly by de Freycinet, and the fine illustrations are by Lesueur and Petit. The plates consist of 5 coloured coastal views, natural history subjects (9 coloured), topographical views, native weapons, canoes, habitations, etc. (some coloured), and 10 portraits (4 coloured) of NAMED Aborigines by Nicolas-Martin Petit (1777-1804). One of the folding topographical views is a fine plate of Sydney by Charles Alexandre Lesueur (1778-1846). The expedition was commanded by Nicolas Thomas Baudin (1754-1803), who died at Batavia on the way home. The purpose of the voyage was the thorough examination of the western and southern coasts of Australia, and especially to investigate a belief that a strait existed linking the southern sea with the Gulf of Carpentaria, thus dividing New Holland into two large islands. A six months’ stay at Sydney is fully described by Peron, embodying a valuable account of life in the early years of the settlement. Despite the failure of the expedition to complete its allotted tasks and the untimely death of its commander the scientific achievements were outstanding and many hundreds of plants were illustrated and described and in addition a collection of over eighteen thousand Zoological specimens was amassed, together with observations on numerous subjects - all this with a complement greatly reduced (both in scientific staff & crew) by desertion and illness! Demy 8vo, Third Edition; pp. xii, 180; 16 etched illustrations on 12 plates (2 folding & 1 printed in red-brown ink); modern half calf in antique style; the frontispiece (with a small tear repaired), title-page & following leaf washed, some occasional very mild browning or soiling to other leaves; the two folding plates sometime split at folds, with minor loss of upper margin to the second, but now well-restored and laid down; blank foremargin of pp. 173/4 restored; uncut; a very good, sound copy; rare. London; Law & Whittaker; 1818.  **Ferguson 728; Du Rietz 1188 “this edition [revised and extended] is the best (and apparently also the rarest) of the three English editions.”**  We are disposed to dispute Du Rietz’s claim as to rarity, the First Edition, printed in Taunton, being the rarest in our experience, but all editions are rare. The Briton visited several places on the South American coast, but was ordered from Brazil to find the American frigate, U.S.S. Essex, Captain David Porter, which was threatening British whalers in the Pacific. Details of the activities of U.S.S. Essex in the Marquesas are related. When the Briton called at Pitcairn the author interviewed John Adams, the sole survivor of the Bounty mutineers, who gave him a full account of the history of the mutineers after they left Tahiti. #51805  A$750.00

71 Walter, Richard [& Robins, Benjamin]. **A VOYAGE ROUND THE WORLD**, In the Years MDCCXL, I, II, III, IV. By George Anson, Esq; Commander in Chief of a Squadron of His Majesty’s Ships, sent upon an Expedition to the South-Seas. Compiled From Papers and other Materials of the Right Honourable George Lord Anson, and published under his Direction, by Richard Walter, M.A. Chaplain of his Majesty’s Ship the Centurion, in that Expedition. Illustrated with Forty-Two Copper-Plates. London: Printed for the Author; By John and Paul Knapton, in Ludgate-Street. MDCCXLVIII. Thick Royal 4to, First Large Paper Issue of First Edition; pp. [vi], [xii](list of Subscribers), [xvi](Contents & Introduction), 418(last blank), [2](Directions to the Binder); 12 folding charts, 2 folding plans, 28 folding plates; original roan-backed marbled boards; (joints cracked, but cords firm; boards very slightly rubbed; spine ends worn with small portion missing from foot); ENTIRELY UNCUT, AS ISSUED; a very fine, clean and crisp copy; EXTREMELY RARE in such condition. Printed for the Author; by John & Paul Knapton; 1748. ***Tew 1, noting (in an unpublished bibliography) that this Royal Paper issue is very rarely found. As for the standard issue on demy paper the earliest issues of the First Edition were published without the world chart which was not done until later issues. While Lord Anson’s own copy (and some others) do have the world chart, most copies of the First Edition (on both sizes of paper) are without it and it is not included in the...
list of charts and plates. This copy is entirely undisturbed in its original binding and clearly never had the world chart. Page 319 is misnumbered 219 as in the standard issue. There is a contemporary Ms. correction on page 14, and contemporary inked initials on the title page - E. H. - suggesting that this copy belonged either to Sir Edward Hawke (Vice-Admiral of the Blue) or to Edward Hooper, as these are the only two subscribers with these initials. There are 373 subscribers to this, the Royal Paper edition and very, very few copies will have survived in their original publisher’s binding as here. This Royal Paper issue is truly a magnificent production with generous margins and thicker, superior paper. While not a particularly uncommon title, copies of the Royal Paper issue, entirely undisturbed, are of extreme rarity. This, the official account of the famous voyage, was immediately immensely popular, and ran to many editions. The list of subscribers to the First Edition occupies 12 pages, closely set in three columns to the page. Many of the illustrations are from drawings by Lieutenant PIERCY BRETT, who was placed in command of the captured Manila galleon, and who also contributed to the relation of the voyage. The expedition was considered a successful venture owing to the capture of the richly laden Manila galleon, but over 1000 lives were lost and out of seven vessels only the flagship Centurion returned. The contribution to geographical knowledge was negligible. Renard 1669 (THIS copy). #41035

Zimmermann, Heinrich. **DERNIER VOYAGE DU CAPITAINE COOK AUTOUR DU MONDE**, où se trouvent les circonstances de sa mort, Publie en Allemand par Henri Zimmermann temoin oculaire, & traduit avec un abrège de la vie de ce navigateur celebre, & des notes. Berne, Chez la nouvelle Societe typographique. 1783. Second Edition in French; pp. xvi, 200; in most attractive full contemporary vellum, gilt (a trifling stain at foot of spine only), marbled edges; a fine copy; very rare. Berne; la nouvelle Societe typographique; 1783. ***Beddie 1630; Holmes 44 (q.v.); Forbes 59; Du Rietz 1364. *All early editions of this important account of Cook’s Third Voyage, published four years before the official account are very rare, the first [German] edition extremely so. It was not translated into English until 1926. This second French edition is reset from the first of the previous year but is identical apart from the ornamentation on the title-page and the date at its foot. Both French editions are of great rarity and are of particular interest as they contain additional matter not found in the original German editions or in the (late) English translations. This additional matter comprises some brief introductory notes by one Roland (almost certainly the translator), the “Abregee” Life of Cook (pp. 118-172), and quite extensive notes (pp. 173-200 - some forty numbered items). Holmes and Du Rietz note that the “Life” appears to be a somewhat abridged translation of Lichtenberg and Georg Forster’s early life of Cook, published in Gottingen in 1780. Zimmermann was coxswain in the “Discovery” and as a foreign national (he was a native of Speyer) was able to withhold his journal despite the instructions to surrender all logs and journals which were given to all serving officers and men. As a low-ranking member of the expedition his account gives an interesting and different perspective from the other accounts of Cook’s third voyage. Holmes notes that “his appreciation of Cook’s character deserves to rank with that of Samwell.” #8241 $18,000.00
