“A LITTLE LIBRARY, GROWING LARGER EVERY YEAR, IS AN HONOURABLE PART OF A MAN’S HISTORY. IT IS A MAN’S DUTY TO HAVE BOOKS. A LIBRARY IS NOT A LUXURY, BUT ONE OF THE NECESSARIES OF LIFE.”
- HENRY WARD BEECHER

SHAKESPEARE, WILLIAM.
Mr. William Shakespeare's Comedies, Histories, and Tragedies. London: Printed by Tho. Cotes, for Robert Allot, And Are To Be Sold At His Shop, 1632. Second Folio Edition. Bound in full leather, gilt titles and toothing to the spine, red morocco spine label, raised bands. This copy has a presentation bookplate for the Century Association Library, New York City, donated by “Wm. M. Allen.” For reference to Allen's donation see the Association's 1872 Yearbook, “The Library and Art collections have received some important accessions during the year... and it has been enriched in particular by the valuable collection presented by Mr. William M. Allen.” There is a short entry for a Shakespeare Second Folio in its 1879 Catalogue, likely to be this copy. It is estimated that no more than 1000 copies of the Second Folio were printed, and it is believed less than 200 copies are still in existence today. In whole or partial facsimile are the frontispiece, the Tempest p. 1/2, 17/18, 19/ “Two Gentlemen from Verona “ p. 20; “Richard III” 173/4; final page of Macbeth and first page of Hamlet 171/2; “Othello” p. 351/2 & 359/; “Anthony and Cleopatra” p. 360 to 364, 3; Cymbeline.

The Shakespeare Folios “have an aura of book magic about them. For a bibliophile it is a volume devoutly to be wished for and rarely attained; to a library it is a crowning jewel of a collection... Shakespeare, indeed, is a name to conjure with. No lengthy explanations are needed; he is simply the most distinguished author in the English language” (Legacies of Genius, 36).

FIELDING, HENRY.

"The book is generally regarded as Fielding’s greatest, and as one of the first and most influential of English novels" (Drabble, 988). "Such was the demand that all 2,500 copies in print had already been sold by the date announced for its official publication, a phenomenon that one observer believed to be 'an unheard-of case.' Tom Jones quickly sold 10,000 copies, making it one of the great best-sellers of its time; it has never since been out of print." (John Allen Stevenson, The Real History of Tom Jones). $12,500

DICKENS, CHARLES.

Dickens is generally considered the greatest writer of the Victorian period. His works are characterized by attacks on social evils, injustice, and hypocrisy. “His imaginative freshness, his deep and sincere tenderness and pity, his whole-souled humor that is seldom sharpened into wit, his superabundance of creative energy, have built a deathless niche in the temple of fame for Charles Dickens” (Kunitz & Haycraft, 184).

DICKENS, CHARLES.

HAWTHORNE, NATHANIEL.

The widely celebrated author has been revered not only by the public but by his literary contemporaries as well. Edgar Allen Poe said, "the style of Hawthorne is purity itself. His tone is singularly effective—wild, plaintive, thoughtful, and in full accordance with his themes... We look upon him as one of the few men of indisputable genius to whom our country has as yet given birth" (McFarland, 1988). Ralph Waldo Emerson wrote later that "Nathaniel Hawthorne’s reputation as a writer is a very pleasing fact, because his writing is not good for anything, and this is a tribute to the man" (Nelson, 1981). Henry James praised Hawthorne, saying, "The fine thing in Hawthorne is that he cared for the deeper psychology, and that, in his way, he tried to become familiar with it" (Porte, 1969). Lastly, the poet John Greenleaf Whittier wrote that he enjoyed the "weird and subtle beauty" in Hawthorne’s tales (Woodland, 1985).

Clemens, Samuel L. (Mark Twain). The Adventures of Huckleberry Finn. New York: Charles L. Webster and Company, 1885. First edition. Octavo, original publisher’s decorated green cloth. The author Zane Grey’s copy, with his blindstamp to the front free endpaper and first blank. Contains all the agreed upon first issue points for the clothbound book: page 9 with “Decided” remaining uncorrected (to “Decides”); page 13, illustration captioned “Him and another Man” listed as on page 88; page 57, 11th line from bottom reads “with the was”. Other points of bibliographical interest included in this copy are the frontispiece portrait without cloth table cover under the bust, bearing the Heliotype Printing Co. imprint; copyright page dated 1884; page 143 with “I” missing from “Col.” at top of illustration and with broken “b” in “body” on line seven; page 155 with a larger final “5”; page 161, no signature mark “11”. As to issue points resulting from damaged plates (e.g. the dropped “5” on p 155), MacDonnell concludes, “they are of no significance in determining the sequence of the printing of the sheets. All of these occur at random in relation to each other within copies of the first printing, a strong indicator of the use of multiple plates, and possibly mixed sheets within the collating process” (“Huck Finn” Firsts Magazine). A nice association copy linking these two great American writers. Housed in a full morocco clamshell case.

Ernest Hemingway once declared about The Adventures of Huckleberry Finn, “All modern literature comes from one book by Mark Twain. It’s the best book we’ve had. All American writing comes from that. There was nothing before. There has been nothing since.” $8,500
STEINBECK, JOHN.
The Grapes of Wrath. New York: The Viking Press, 1939. First issue, with “First Published in April 1939” on copyright page and first edition notice on front flap of dust jacket. Octavo, original beige cloth. Inscribed by the author, "For Jules and Joyce and also Joan with love John Steinbeck." Below his signature Steinbeck added his "Pigasus" drawing. The recipient, Jules Buck was a movie producer; he and Steinbeck made an early attempt toward a collaborative screenplay for what would become Elia Kazan’s "Viva Zapata," though Steinbeck’s contribution was such that he received sole credit. Buck produced such post-war film classics as Robert Siodmak’s The Killers (based on the story by Ernest Hemingway), and Jules Dassin’s The Naked City. His wife Joyce Gates was an actress and their daughter Joan became the editor of French Vogue. Steinbeck reserved his flying pig doodle for close friends and associates. Fine in a fine dust jacket with a tiny closed tear. Housed in a custom half morocco clamshell box. An exceptional copy.

“...The Grapes of Wrath is the kind of art that’s poured out of a crucible in which are mingled pity and indignation... Its power and importance do not lie in its political insight but in its intense humanity... [It] is the American novel of the season, probably the year, possibly the decade” (Clifton Fadiman).

$45,000
Fitzgerald's first novel, *This Side of Paradise*, displayed a sophisticated cynicism masking keen psychological insight and sensitivity to the falseness of the ideals of the so-called "jazz era" in America, following World War I. F. Scott Fitzgerald continued to write on this theme in two volumes of short stories, *Flappers and Philosophers* and *Tales of the Jazz Age*, and in the novel *The Beautiful and the Damned*. With the publication of *The Great Gatsby*, the story of a gross and ostentatious man who gained immense material success but who destroyed himself and those around him in the process, F. Scott Fitzgerald's full powers as a novelist were revealed; he was ranked by many critics as one of the pre-eminent American writers. In his later writings, as exemplified by the short story collections *All the Sad Young Men* and *Taps at Reveille*, and the novel *Tender is the Night*, his central theme shifted to what he deemed the inevitable corruption of the individual by the blind crassness of modern society.

In 1922, Fitzgerald announced his decision to write "something new--something extraordinary and beautiful and simple and intricately patterned." That extraordinary, beautiful, intricately patterned, and above all, simple novel became *The Great Gatsby*, arguably Fitzgerald's finest work and certainly the book for which he is best known. A portrait of the Jazz Age in all of its decadence and excess, Gatsby captured the spirit of the author's generation and earned itself a permanent place in American mythology. Cyril Connolly called *The Great Gatsby* one of the half dozen best American novels: "Gatsby remains a prose poem of delight and sadness which has by now introduced two generations to the romance of America, as Huckleberry Finn and Leaves of Grass introduced those before it" (Modern Movement 48).

First edition, first printings of each of F. Scott Fitzgerald's works. Octavo, 8 volumes. Uniformly bound by Bayntun-Riviere Bindery in full dark green morocco. Titles to the spine in gilt, raised bands, single rule to boards gilt, twin rule to turn ins, all edges gilt, except *The Great Gatsby* which has only the top edge gilt. F. Scott Fitzgerald signature stamped on the front panel of each volume in gilt. An exceptional set.

Octavo, original green cloth backed brown boards, titles to spine in gilt. Inscribed by the author in the year of publication, "To Miss Ethel / with love, / Nelle Harper / September 17, 1960" on the front free endpaper. Near fine with minor wear to the spine extremities in the original first issue dust jacket with the Jonathan Daniels blurb on the rear flap and the photograph of the author taken by Truman Capote on the rear panel, which has had some professional restoration. Housed in a custom half morocco clamshell box. The first edition had a printing run of 5,000 copies and was published in July 1960, this copy was inscribed two months after publication. A warm inscription.

To Kill a Mockingbird became an immediate best-seller and won the 1961 Pulitzer Prize for Fiction. The New Yorker declared it "skilled, unpretentious, and totally ingenious". It has gone on to become one of the best-loved classics of all time and has been translated into more than forty languages selling more than forty million copies worldwide. Made into the Academy Award-winning film starring Gregory Peck. Named the best novel of the twentieth century by librarians across the country (Library Journal). $38,500
SMITH, BETTY.

"Forty years before Holden Caulfield abandoned Pencey Prep to begin his ill-fated Manhattan odyssey, Francie Nolan struggled to obtain an education in the teeming tenement neighborhood of Williamsburg, Brooklyn. Francie grows up nurtured by the loving gallantries of her father, a singing waiter who drinks too much, and the rigorous austerities practiced by her brave mother, a janitress who reads to her children each night from the complete plays of Shakespeare and the 'Protestant Bible'. The book was an instant best-seller, with 300,000 copies purchased in the first six weeks. Writing in the Yale review, Orville Prescott praised A Tree Grows in Brooklyn as a 'rich and rare example of regional local color writing, filled to the scuppers with Brooklynese, Brooklyn folk-ways and Brooklyn atmosphere' (New York Public Library Books of the Century, 207).

BELLOW, SAUL.

The Adventures of Augie March comes on stage with one of literature’s most famous opening lines, “I am an American, Chicago born, and go at things as I have taught myself, free-style, and will make the record in my own way: first to knock, first admitted.” Bellow quickly found a receptive audience for his new energetic style. The critic Irving Howe took note of Bellow’s “free style” manner, calling it “the first major new style in American prose fiction since those of Hemingway and Faulkner.” This novel went on to win the National Book Award for 1954 and was listed on Modern Library’s 100 greatest novels of the twentieth century.

BELLOW, SAUL.

Herzog. New York: The Viking Press, 1964. First edition of the author’s second of three National Book Award winning novels, which was and remains an unprecedented literary accomplishment. Octavo, original blue cloth. Inscribed by the author to John Nef and his wife, “To John Nef and Mrs. Nef with very good wishes Saul Bellow.” The recipient John Nef was an economic historian and founder of The University of Chicago’s Committee on Social Thought, where Bellow was a faculty member for over 30 years. Light rubbing, else near fine in a bright near fine dust jacket. Housed in a custom half morocco clamshell box. An outstanding association copy.

A novel complex, compelling, absurd and realistic, Herzog became a classic almost as soon as it was published in 1964. In it Saul Bellow tells the tale of Moses E. Herzog, a tragically confused intellectual who suffers from the breakup of his second marriage, the general failure of his life and the specter of growing up Jewish in the middle part of the 20th century. He responds to his personal crisis by sending out a series of letters to all kinds of people. The letters in total constitute a thoughtful examination of his own life and that which has occurred around him. What emerges is not always pretty, but serves as gritty foundation for this absorbing novel. “A masterpiece” (The New York Times).

$4,000
HEMINGWAY, ERNEST.

Lightly toned, a near fine in the original slipcase which is in very good condition with a small chip to the middle front panel. A nice bright copy, in the uncommon slipcase.

It bears the mark of Hemingway’s best gifts as a writer” (Mellow). The only signed limited edition of Ernest Hemingway’s works. $8,500

**"WE'D FORGIVE MOST THINGS IF WE KNEW THE FACTS": FIRST EDITION OF THE HEART OF THE MATTER; INSCRIBED BY GRAHAM GREENE**

**GREENE, GRAHAM.**

*The Heart of the Matter* tells the story of a good man enmeshed in love, intrigue, and evil in a West African coastal town. Scobie is bound by strict integrity to his role as assistant police commissioner and by severe responsibility to his wife, Louise, for whom he cares with a fatal pity. When Scobie falls in love with the young widow Helen, he finds vital passion again yielding to pity, integrity giving way to deceit and dishonor—a vortex leading directly to murder. As Scobie’s world crumbles, his personal crisis develops the foundation of a story by turns suspenseful, fascinating, and, finally, tragic. “Graham Greene was in a class by himself...He will be read and remembered as the ultimate chronicler of twentieth-century man’s consciousness and anxiety” (William Golding).

**"THERE IS A POINT OF NO RETURN, UNREMARKED AT THE TIME, IN MOST LIVES": FIRST EDITION OF THE COMEDIANS; INSCRIBED BY GRAHAM GREENE A FEW MONTHS BEFORE PUBLICATION**

**GREENE, GRAHAM.**

One of Greene’s most chilling and prophetic novels, *The Comedians* is set in a Haiti ruled by Papa Doc and the Tontons Macoute, his sinister secret police. Just as *The Quiet American* offered a preview of the coming horrors of American involvement in Vietnam, this novel presages the chaos in Haiti. “Graham Greene arouses responses of curiosity and attention comparable to those set up by Malraux...Faulkner and Hemingway” (New Statesman).

DURRELL, LAWRENCE.

Lawrence Durrell’s masterpiece The Alexandria Quartet are four novels set in Alexandria, Egypt during the 1940s. The first of his four novels Justine “demands comparison with the best books of our century.” Balthazar continues Durrell’s epic series with “a spontaneous, resourceful new beauty” and, in the third novel Mountolive, Durrell again creates a “work of splendid craft and troubling veracity.” The tetralogy’s final novel Clea completes Durrell’s stated design of modeling “the series on ‘the relativity proposition’ in physics”—altogether achieving “a spontaneous, resourceful new beauty” (New York Times).

HELLER, JOSEPH.

“Catch-22, Joseph Heller’s first and best-known novel, depicts a military world turned upside down. In Heller’s World War II, a supplies manager has more power than a general, and anyone seeking a discharge on the grounds of insanity is declared sane enough to keep on fighting. When the novel appeared in 1961, World War II veterans appreciated its satire of the military bureaucracy and chaos of war. By the mid-1960’s, it had become a cult classic among counterculture activists for its biting indictments of war. Many consider the novel to be the definitive statement of the modern antiwar position. The phrase ‘Catch-22’, symbolizing the absurdity of all institutional logic, has become a permanent part of our language” (NYPL Books of the Century 177).

HUXLEY, ALDOUS.

Brave New World. London: Chatto & Windus, 1932. First edition. Octavo, original blue cloth. Light rubbing to the spine and extremities, near fine in an exceptionally bright dust jacket with only minor light rubbing to the edges.

“After the success of his first three novels, Huxley abandoned the fictional milieu of literary London and directed his satire toward an imagined future. He admitted that the original idea of Brave New World was to challenge H.G. Wells’ Utopian vision... The novel also marks Huxley’s increasing disenchantment with the world, which was to result in his leaving England for California in 1937 in search of a more spiritual life. The book was immediately successful” (Parker & Kermode).

JAMES, P.D.
Cover Her Face. London: Faber and Faber, 1962. First edition of the author's first book. Octavo, original green cloth. Fine in a near fine dust jacket. Signed by the author on the title page with the added words, "Exactly three months before the killing at Martingale Mrs Maxie gave a dinner party." The inscription is the opening line of this novel. Housed in a custom half morocco clamshell box.

"Cover Her Face was, James has said, written simply to try out her powers in fiction as a preliminary to attempting the novel proper. Its immediate success, however—snapped up at once by the prestigious British publishers Faber and Faber, and well reviewed on publication—caused her to try her hand again at the detective story, putting even more of the novel’s concern with the workings of the human mind, and indeed of the soul, into its pages. Already present in that first attempt were many of the hallmarks of her subsequent writing. There was the fastidious prose, beautifully accurate and not without complex... plots... Add to these qualities a gift for forward-looking storytelling... and, above all, the creation of a detective you like and want to go on liking in Adam Dalgliesh, policeman and plausible poet" (Keating, 40).

LE CARRE, JOHN.
The Karla Trilogy| Tinker, Tailor, Soldier Spy, The Honourable Schoolboy, Smiley’s People. London: Hodder & Stoughton, 1974-1979. First editions of each title in the author’s acclaimed Karla Trilogy. Octavo, original black cloth. 3 volumes. Each are signed by Le Carre on the title page. Tinker, Tailor Soldier Spy is signed “David Cornwell aka John LeCarre.” Each are near fine to fine in near fine dust jackets, with The Honourable Schoolboy price-clipped. An excellent set, uncommon in this condition and signed.

Tinker, Tailor, Soldier, Spy garnered instant praise for Le Carre as “the premier spy novelist of his time. Perhaps of all time” (Time). “Le Carre is simply the world’s greatest fictional spymaster” (Newsweek). Le Carre’s inspiration drew from his experience of the revealing of the Cambridge Five traitors in the 1950s and ’60s (Anthony, 2009), and the novel’s popularity can be seen in relation to those shocking events. In 2011, the novel was adapted into a successful film, starring Gary Oldman and Colin Firth, and it received three nominations at the 84th Academy Awards for Best Adapted Screenplay, Best Original Score, and Best Actor. This successful production is but one of Le Carre’s numerous accolades in espionage fiction. He was awarded both the Helmerich Award and the Goethe Medal, and in 2008, The Times ranked Le Carré 22nd on its list of “The 50 greatest British writers since 1945.”

FIRST EDITION OF IAN FLEMING’S FIRST NOVEL CASINO ROYALE

FLEMING, IAN.

Casino Royale was written by Ian Fleming in Jamaica over a period of around two months, largely from his own experiences and imagination; he also devised the artwork for the cover. "Within the first few pages Fleming had introduced most of Bond’s idiosyncrasies and trademarks," which included his looks, his Bentley and his smoking and drinking habits. The full details of Bond’s martini were kept until chapter seven of the book and Bond eventually named it "The Vesper", after Vesper Lynd. (Andrew Lyckett)" It has been filmed twice as a feature film, the first being the 1967 spoof starring David Niven, and later as the twenty-first official Bond film starring Daniel Craig as James Bond. $25,000

“ONE OF THE GREAT CHARACTERS OF MODERN FICTION”: FIRST EDITION OF KAZANTZAKIS’ ZORBA THE GREEK; SIGNED BY HIM

KAZANTZAKIS, NIKOS.

Zorba the Greek is the epic tale of a young Greek intellectual who ventures to escape his bookish life with the aid of the boisterous and mysterious Alexis Zorba. Kazantzakis has made a work of stunning genius. The book is about life. How does one live it? How does one deal with the vicissitudes of it? The tragedies? The failures? Does one stand on the sidelines of life and never jump in? Does one fear getting married or fear having children or fear doing any activity that could fail or come to naught? Zorba tells us what to do. And in the end, when the whole bloody mess comes falling down around us, and all our plans and schemes are for naught, what do you do? Dance. Dance as hard and as wild as you can. Spit and fume and sing and smash your heels into the dirt. And laugh at it all. The absurdity of worry and wondering. Zorba shows us the joy of just “being” and “doing”. The novel was adapted into a successful 1964 film of the same name as well as a 1968 musical, Zorba. $12,000

In 1963, George Seferis was awarded the Nobel Prize for Literature "for his eminent lyrical writing, inspired by a deep feeling for the Hellenic world of culture." ELYTIS, ODYSSEUS.

Selected Poems is drawn from various periods of Elytis' career and traces his development from early surrealism, in which he transforms French influence into a distinct personal voice and mythology, through the dramatic style of The Axion Esti with its blend of spirituality and earthiness, up to the later work in which he experiments with new modes for expressing his perennial themes. Elytis was born in Crete in 1911, and began to publish poetry in the 1930s. He took part in the campaign against the Italian fascists in Albania in 1940-41. He was one of the most prominent poets of the Greek resistance during the Nazi occupation. In 1979 Elytis was awarded the Nobel Prize for his poetry which, “against the background of Greek tradition, depicts with sensuous strength and intellectual clear-sightedness modern man's struggle for freedom and creativeness.” $850

RAND, AYN.

Atlas Shrugged. New York: Random House, 1957. First edition. Octavo, original cloth. Inscribed by the author, “For Deems Taylor- with profound admiration- Ayn Rand 6/18/58.” The recipient, Deems Taylor was an American composer and music critic and a close personal friend of Ayn Rand. The author Nat Benchley, referred to him as “the dean of American music.” He was also a friend of the Algonquin Round Table, a group of writers, actors and critics that met almost daily from at Manhattan’s Algonquin Hotel. Other friendships included composers George Gershwin and Jerome Kern and F. Scott Fitzgerald. Some rubbing to the bottom cloth, an excellent copy in a near fine dust jacket. Housed in a custom half morocco clamshell box. An exceptional association copy.

The theme of Atlas Shrugged, as Rand described it, is "the role of man’s mind in existence." The book explores a number of philosophical themes that Rand would subsequently develop into the philosophy of Objectivism. By 1984 more than five million copies of Atlas Shrugged had been sold, and in a 1991 Library of Congress survey Americans named it second only to the Bible as the book that had most influenced their lives. $22,500
RAND, AYN.
The Fountainhead. Indianapolis: Bobbs-Merrill Company, 1943. First edition, first issue with first edition stated on the copyright page of the author’s first major Objectivist novel, as well as her first best-seller. Octavo, original red cloth. Fine in a near fine first issue dust jacket with some light fading to the spine and small chip to the crown fold. Housed in a custom half morocco clamshell box. Rare, especially without the usual restoration that is encountered with this dust jacket.

Although Rand was a previously published novelist and had a successful Broadway play, she faced difficulty in finding a publisher she thought right for The Fountainhead. She let Macmillian Publishing go when they rejected her demand for better publicity (Branden, 1986), and when her agent criticized the novel, she fired him and handled submissions herself (Burns, 2009). After sifting through eleven more publishers, Rand finally released The Fountainhead with Bobbs-Merrill Company in 1943. The reception was instant, and The Fountainhead became a bestseller in two years. The protagonist, Howard Roark, whose character was thought to be inspired by Frank Lloyd Wright. Cited by numerous architects as an inspiration, Rand said the theme of the book was "individualism versus collectivism, not within politics but within a man’s soul.” Rand chose architecture as the analogy of her heady themes because of the context of the ascent of modern architecture. It provided an appropriate mode to make relevant her beliefs that the individual is of supreme value, the "fountainhead" of creativity, and that selfishness, properly understood as ethical egoism, is a virtue. Some critics consider The Fountainhead to be Rand’s best novel (Merill, 1991). Indeed, philosopher Mark Kingwell described it as "Rand’s best work” (Kingwell, 2006).
RAND, AYN.
The Fountainhead. Indianapolis: Bobbs-Merrill Company, 1943. First edition, second printing of the author’s breakthrough work. Octavo, original red cloth. Warmly inscribed by Ayn Rand on the title page, “To Eva- This is a second printing, but you’re cheerful enough for it- with my best wishes- Ayn 1/15/81.” Name to the front endpaper, an excellent copy in a very good dust jacket with some fading to the spine and a few closed tears. “Rand’s 1961 book For The New Intellectual outlines her philosophical system of Objectivism by means of excerpts from We The Living, Anthem, The Fountainhead and Atlas Shrugged... She then opens the book with an essay on the cultural bankruptcy that has undermined the capitalistic system of the United States. The essay is directed at ‘the New Intellectuals’ needed to restore and defend a capitalist economy in the face of that cultural bankruptcy. Rand is very clear that neither pragmatic nor economic argument is what must be used. Instead, it is arguments for ‘a new morality of rational self-interest’ that will provide the foundation for a new capitalist culture” (Bostaph, Journal of Ayn Rand Studies 11:1,20).
“IF YOU REALLY WANT TO HEAR ABOUT IT”:
THE CATCHER IN THE RYE, FIRST EDITION IN A FIRST-ISSUE DUST JACKET

SALINGER, J.D.
The Catcher In The Rye. Boston: Little Brown, 1951. First edition of the author's first book. Octavo, original black cloth. Fine in a bright near fine dust jacket without the usual tanning to the spine and without any chips or tears. The dust jacket is the correct first issue with the cropping of Salinger’s head on the rear panel and the price on the front flap. Housed in a custom half morocco clamshell box. An exceptional copy.

Since his debut in 1951 as The Catcher In the Rye, Holden Caulfield has been synonymous with "cynical adolescent." Holden narrates the story of a couple of days in his sixteen-year-old life, just after he's been expelled from prep school, in a slang that sounds edgy even today and keeps this novel on banned book lists. It begins, "If you really want to hear about it, the first thing you’ll probably want to know is where I was born and what my lousy childhood was like, and how my parents were occupied and all before they had me, and all that David Copperfield kind of crap, but I don't feel like going into it, if you want to know the truth. In the first place, that stuff bores me, and in the second place, my parents would have about two hemorrhages apiece if I told anything pretty personal about them."
MALTHUS, THOMAS ROBERT.

“There can be no doubt that [Malthus’] importance for economists today rests mainly on his Principles of Political Economy. It was because of this latter work that J. M. Keynes (1933) reinstated Malthus as a major figure in modern economic thought” (New Palgrave). “One of the founders of modern economics,” Malthus was credited by Keynes with framing the theory “that a lack of effective demand can cause economic crises” (PMM 251).

FINELY BOUND SET OF ADAM SMITH’S MASTERPIECE THE WEALTH OF NATIONS

SMITH, ADAM.

Adam Smith’s masterpiece, first published in 1776, is the foundation of modern economic thought and remains the single most important account of the rise of, and the principles behind, modern capitalism. “Adam Smith’s enormous authority resides, in the end, in the same property that we discover in Marx: not in any ideology, but in an effort to see to the bottom of things” (Robert L. Heilbroner).
MACKAY, CHARLES. 

*Memoirs of Extraordinary Popular Delusions and the Madness of Crowds* is divided into three broad categories, including 'National Delusions,' 'Peculiar Follies,' and 'Philosophical Delusions.' The author discusses a wide variety of subjects and events, which include economic bubbles like the tulip craze of Holland in 1637 and the Mississippi Company financial bubble of 1719; alchemy, which was of particular interest to individuals who wanted to create gold out of lesser-valued materials; the Crusades, also known as the Middle Ages mania; witch hunts, the persecution of thousands of innocent victims that arose from either supernatural ill fortune or neighbors with a score to settle; duels; the political and religious influence on beards; and several others. The impact of Mackay’s work has been remarkably far-reaching, influencing such fields as popular psychology and the stock market— as noted by *The New York Times*, which urged: “Any investor who has not read Charles Mackay’s “Tulipomania,” from his classic *Extraordinary Popular Delusions*, first published in 1841, should grab this book for that exercise alone.”

LEFEVRE, EDWIN. 

Reminiscences of a Stock Operator is the thinly disguised biography of Jesse Livermore, a remarkable character who first started speculating in New England bucket shops at the turn of the century. Livermore, who was banned from these shady operations because of his winning ways, soon moved to Wall Street where he made and lost his fortune several times over. What makes this book so valuable are the observations that Lefèvre records about investing, speculating, and the nature of the market itself. $18,000

HAMILTON, WILLIAM PETER (W.P.)

In The Stock Market Barometer, William Hamilton’s clear and in-depth analysis explores the Dow Theory’s underlying principles, its explanation of averages and its remarkable affinity for predictable cycles of panic and prosperity. More than just a blueprint of the Theory, however, Hamilton’s cogent discussion provides a concise examination of the stock market and its history since 1897, as well as thorough descriptions of the notable trends he observed during a distinguished career. His undisputed gifts of insight and interpretation bring focus and flavor to his candid views on a variety of vital topics, including market manipulation, speculation, and regulation. “I urge you to read this book, and read it again and again. Robert Rhea, the famous Dow Theorist of the 1930s, stated that he read and reread The Stock Market Barometer at least once a year. Frankly, I can think of no better advice” (Richard Russell). $2,000
FISHER, IRVING.

In this work, Fisher puts forth the theory that booms and depressions may stem from deranged money, or currency that is behaving irrationally due to various value-skewing factors such as debt, hoarding, confidence, and consumption. Considered to be “the father of monetary economics”. $2,500

FISHER, IRVING.
The Stock Market Crash—And After. New York: Macmillan, 1930. First edition. Octavo, original red cloth. Fine in a very good dust jacket. Laid into this copy is a signed letter from Irving Fisher on his Yale University letterhead. Rare in the original dust jacket.

“Irving Fisher was, in the opinion of many, the leading economic theorist in the United States during the first half of the 20th century. Although his contributions to economic theory and to the development of econometrics ensure him a preeminent position among contemporary economists, he was a versatile man. In his day he was equally well-known as social philosopher, teacher, inventor, businessman, and passionate crusader for many social causes” (DAB). $5,000

FRIEDMAN, MILTON.

This economist’s masterpiece of economic theory "reinterpreted that Keynesian concept of the consumption function by relating it to lifetime instead of current income. For its ingenious manipulation of data and its reconciliation of apparently conflicting evidence, this book must rank as one of the masterpiece of modern econometrics" (Blaug, 63). "Milton Friedman offered conservative answers to the great questions of economics, at the same time challenging economic thought since Keynes. In this book, Friedman disputes Keynes' idea that aggregate spending and income are directly linked (and therefore open to government influence). Rather, he writes, consumer spend independent of government policy, based on their expected long-term, or 'permanent' income. In all his writing, Friedman embraces a laissez-faire approach that celebrates individual freedom. He sees the ideal role for government as 'umpire', not 'parent' (NYPL Books of the Century 144). $17,000

MILTON FRIEDMAN LETTER TO JOHN CHAMBERLAIN

FRIEDMAN, MILTON; JOHN CHAMBERLAIN.
Milton Friedman Autographed Letter Signed. Chicago: University of Chicago, 1976. Autograph letter signed by Milton Friedman to journalist John Chamberlain, dated March 19, 1976, just seven months before Friedman was awarded the Nobel Prize in Economics. The recipient John Chamberlain was a well-known journalist, business and economic historian, syndicated columnist and literary critic. A nice association linking these great twentieth century intellects. Matted and in a gilt frame.

John Chamberlain helped to promote Austrian economist F. A. Hayek’s, The Road to Serfdom, writing the foreword to the first American edition of the book in 1944. William F. Buckley, Jr., credited Chamberlain with "changing the course of his life" by writing the introduction to Buckley's first book, God and Man at Yale. Later, he was a contributing editor to Buckley’s magazine, National Review, from its founding until his death. $2,500

GRANGER, CLIVE W.J.; IN ASSOCIATION WITH M. HATANAKA.

Clive Granger was jointly awarded the Nobel Prize in economics in 2003 along with Robert Engle for discoveries in the analysis of time series data that had changed fundamentally the way in which economists analyze financial and macroeconomic data. “In 1956, at the age of just 21, Granger was appointed a junior lecturer in statistics at the University of Nottingham. He was interested mainly in applied statistics and economics Granger chose as the topic of his doctoral thesis time series analysis, a field in which he felt that relatively little work had been done at the time. In 1959 he obtained his Ph.D. with a thesis on "Testing for Non-stationarity". In 1964 Granger published the results of research in a book called Spectral Analysis of Economic Time Series Granger which proved influential in the adoption of the new methods” (Tore Frängsmyr).

“THE MATHEMATICAL EXPECTATION OF THE SPECULATOR IS ZERO”: RARE FIRST EDITION OF BACHELIER’S WORK ON PROBABILITY

BACHELIER, LOUIS.

The theory of speculation was first presented in Bachelier’s Doctorate thesis which was published as a treatise in 1900. It was later popularized in Le Jeu, La Chance et le Hasard (Games, Chance, and Randomness). In this work Bachelier argues that continuous distributions best describe random phenomena. His systematic use of the concept of continuity in probabilistic modeling was, he felt, his major contribution to science. He defined Brownian motion predating Einstein by five years and discussed the use of Brownian motion to evaluate stock options. Historically, he was the first person to use advanced mathematics in the study of finance and is considered a pioneer in the study of financial mathematics. $3,250

“HE WHO ENLISTS A MAN’S MIND WIELDS A POWER EVEN GREATER THAN THE SWORD OR THE SCEPTER”: FIRST EDITION OF THE WORLDLY PHILOSOPHERS; INSCRIBED BY ROBERT HEILBRONER TO JOHN KENNETH GALBRAITH

HEILBRONER, ROBERT L.

The Worldly Philosophers elucidates historically popular economic theories. The author’s ability to do so with ease and effectiveness is a mark of its appreciation, and it remains an indispensable text for students of economics today. John Kenneth Galbraith stated "if ever a book answered a crying need, this one does. Here is all the economic lore most general readers conceivably could want to know, served up with a flourish by a man who writes with immense vigor and skill, who has a rare gift for simplifying complexities." Galbraith’s approval is all the more relevant considering that this copy was inscribed to him. $7,500
CARNEGIE, ANDREW.

*The Gospel of Wealth describes the responsibility of philanthropy by the new upper class of self-made rich. More than a century later this classic work has inspired modern day philanthropy.* $1,250

WIESER, FRIEDRICH VON.

*Wieser’s two main contributions to economic theory are the theory of “imputation,” establishing that factor prices are determined by output prices and the theory of “alternative cost” or “opportunity cost” as the foundation of value theory. Both are fundamental “subjectivist” pillars in Neoclassical theory which were effectively ignored by Alfred Marshall and the “real cost” British theorists.* $975
KEYNES, JOHN MAYNARD [J.M.]

**J.M. Keynes Letter Signed.** St. Louis St. Louis, 1917. Autograph Letter Signed by J.M. Keynes To Oswald Toynbee Falk, a stockbroker and a close friend of Keynes. “[St Louis approaching New York] 11 Sept 1917. My dear Falk, I have had the enclosed letter from Herbert Samuel and have promised to do my best to secure such an article as he indicates. Will you try your hand? I should be very grateful if you would. I suspect that in your usual way you will disclaim the competence. But I would undertake to be the judge of that. In any case you might perhaps fortify yourself with collective wisdom by getting your dining party to discuss it first. I am not sure it wouldn’t prove a very instructive topic. If so, perhaps I might bring Mr. Samuel as a guest? I expect to be back in England by the end of the first week of October. Sincerely yours J.M. Keynes.” Written on printed letterhead of the Royal Economic Society, Kings College, Cambridge (From Mr. J. M. Keynes, Editor of the Economic Journal). Housed in a custom half morocco clamshell box. Letters signed by Keynes are uncommon.

Oswald Falk is regarded by Robert Skidelsky as the man who understood John Maynard Keynes’ mind more than any of his contemporaries. He argues that it was Falk who gave Keynes’ his superb understanding of the unruly financial mechanism of capitalism which distinguished his work from that of his contemporaries (Skidelsky, 1992, 25). The London stockbroker, Nicholas Davenport, recalled that Falk spent a lot of time with Keynes speculating in currency and commodity deals. According to the economist Tommy Balogh who worked for Falk it was his mentor who gave Keynes the insights to develop his theory of liquidity preference by understanding the gilt-edged securities market. Skidelsky regretted that Falk, the most perceptive contemporary Keynes-watcher did not write a memoir of Keynes when perhaps he could have. **$6,500**

Exceptionally rare in the original dust jackets and in this condition.

“In 1930, Keynes brought out his heavy, two-volume Treatise on Money, which effectively set out his Wicksellian theory of the credit cycle. In it, the rudiments of a liquidity preference theory of interest are laid out and Keynes believed it would be his magnum opus...[however, criticism was swift and extreme] and the Treatise led to the formation of a reading group, known as ‘the circus,’ composed of young Cambridge economists Richard Kahn and others... Kahn dutifully delivered reports of the Circus’s discussions to Keynes, who subsequently began revising his ideas. One resulting criticism of the Treatise was that it failed to provide a theory of the determination of output and employment as a whole— a particular pertinent question given the huge amount of unemployment at the time” (History of Economic Thought).

FIRST EDITION OF KEYNES “ESSAYS IN PERSUASION” IN THE RARE ORIGINAL DUST JACKET

KEYNES, JOHN MAYNARD [J.M.]

The essays in this volume show Keynes’s attempts to influence the course of events by public persuasion over the period of 1919-40. In the light of subsequent history, 'Essays in Persuasion' is a remarkably prophetic volume covering a wide range of issues in political economy. In articles on the Versailles Treaty, Keynes foresaw all too clearly that excessive Allied demands for reparations and indemnities would lead to the economic collapse of Germany. In Keynes’s essays on inflation and deflation, the reader can find ideas that were to become the foundations of his most renowned treatise, "The General Theory of Employment, Interest and Money. With startling accuracy Keynes forecast the economic fluctuations that were to beset the economies of Europe and the United States and even proposed measures which, if heeded at the time, might have warded off an era of world-wide depression.

This book can prepare an investor for the mental game of Wall Street, that is, the inner game the investor’s mind plays with itself as he watches Wall Street whirl around. (W.H.C. Bassetti).” $650

NEWTON, ISAAC.
The Mathematical Principles of Natural Philosophy. Translated into English by Andrew Motte. To which are added, the Laws of the Moon's Motion, according to Gravity. London: Benjamin Motte, 1729. First edition in English of Newton's Principia. Octavo, two volumes. Bound in full leather, gilt titles and stamping to the spine. With forty-six folding engraved plates and two folding charts. A few leaves with light foxing, pages lightly toned; an excellent copy of this landmark work.

“Newton's Principia is generally described as the greatest work in the history of science. Copernicus, Galileo and Kepler had certainly shown the way; but where they described the phenomena they observed, Newton explained the underlying universal laws. The Principia provided the greatest synthesis of the cosmos, proving finally its physical unity. Newton showed that the important and dramatic aspects of nature that were subject to the universal law of gravitation could be explained, in mathematical terms, with a single physical theory. With him the separation of the natural and supernatural, of sublunar and superlunar worlds disappeared. The same laws of gravitation and motion rule everywhere; for the first time a single mathematical law could explain the motion of objects on earth as well as the phenomena of the heavens. The whole cosmos is composed of inter-connecting parts influencing each other according to these laws. It was this grand conception that produced a general revolution in human thought, equaled perhaps only by that following Darwin's Origin of Species... [Newton] is generally regarded as one of the greatest mathematicians of all time and the founder of mathematical physics” (PMM 161). "It is perhaps the greatest intellectual stride that it has ever been granted to any man to make" (Einstein).
FIRST EDITION OF JAMES WATSON’S FIRST BOOK; INSCRIBED BY THE AUTHOR TO FRIEND AND SOCIOLOGIST FRANCIS SUTTON

WATSON, JAMES D.
Molecular Biology of the Gene. New York: Benjamin, 1965. First edition of the Nobel Prize-winning scientist’s first book preceding "The Double Helix." Inscribed by the author, “To Frank from Jim Watson.” The recipient was the late Ford Foundation sociologist Francis X. Sutton, from whose estate the book was acquired. Francis Sutton and Watson were at Harvard simultaneously and were close friends. Octavo, original illustrated wrappers as issued. In very good condition with light wear and some of the usual creasing to the spine. Association copies of Watson’s works are rare.

Written three years before Watson’s capstone, The Double Helix, The Molecular Biology of the Gene set a new standard for textbooks, particularly through the use of concept heads-brief declarative subheadings. Watson provided a historical basis for molecular biology, concise descriptions of fundamental chemical concepts, and a discussion of standard techniques and model organisms commonly used in molecular biology studies. The Molecular Biology of the Gene can be seen as Watson laying groundwork for what would culminate with the publication of The Double Helix.

FIRST EDITION OF THE DOUBLE HELIX; SIGNED BY BOTH JAMES WATSON AND FRANCIS CRICK

WATSON, JAMES D; [FRANCIS CRICK].
The Double Helix: A Personal Account of the Discovery of the Structure of DNA. New York: Atheneum, 1968. First edition of the author’s ground breaking work regarding the discovery of DNA for which the author, Francis Crick and Maurice Wilkins were awarded the Nobel Prize in Medicine in 1962. Signed by both James Watson and Francis Crick on the title page. Octavo, original blue cloth. Fine in a near fine dust jacket. Exceptionally rare signed by both Watson and Crick. Housed in a custom half morocco clamshell box.

"Science seldom proceeds in the straightforward logical manner imagined by outsiders," writes James Watson in The Double Helix, his account of his codiscovery (along with Francis Crick) of the structure of DNA. Watson and Crick won Nobel Prizes for their work, and their names are memorized by biology students around the world. But as in all of history, the real story behind the deceptively simple outcome was messy, intense, and sometimes truly hilarious. To preserve the "real" story for the world, James Watson attempted to record his first impressions as soon after the events of 1951-1953 as possible, with all their unpleasant realities and "spirit of adventure" intact.

“A MAN DOES WHAT HE MUST AND THAT IS THE BASIS OF ALL HUMAN MORALITY”: FIRST EDITION OF PROFILES IN COURAGE; INSCRIBED BY JOHN F. KENNEDY

KENNEDY, JOHN F.

The Pulitzer Prize-winning book was written when Kennedy was the junior senator from Massachusetts, and it served as a clarion call to every American. The inspiring accounts of eight previous heroic acts by American patriots inspired the American public to remember the courage progress requires. Now, a half-century later, it remains a classic and a relevant testament to the national spirit that celebrates the most noble of human virtues. Kennedy relates these heroisms to sketches of American politicians who have risked their careers for principle. "A man does what he must," he wrote, "in spite of personal consequences, in spite of obstacles and dangers and pressures-and that is the basis of all human morality." $18,500

FIRST EDITION OF STUART LITTLE; INSCRIBED BY E.B. WHITE AND SIGNED BY ILLUSTRATOR GARTH WILLIAMS

WHITE, E.B.; ILLUSTRATED BY GARTH WILLIAMS.

“The story had been brewing with White for years as a disconnected series of bedtime tales for his nieces and nephews by the time it came to Harper. There, shepherded by the distinguished editor Ursula Nordstrom and felicitously illustrated [with 87 drawings] by Garth Williams, the book was eventually published—generally to high acclaim... The book sounds a resonant note as Stuart undertakes his quest for the beautiful bird, Margalo. And that quest, as White himself noted, 'symbolizes the continuing journey that everybody takes—in search of what is perfect and unattainable. This is perhaps too elusive an idea to put into a children's book, but I put it in anyway’” (Silvey, 677).

COMPLETE FIRST EDITION SET OF C.S. LEWIS’ CHRONICLES OF NARNIA

LEWIS, C. S.

The Chronicles of Narnia is "...unforgettable not only for the excitement and suspense of the adventures but also for the strong emotions they describe so well... [and they are] further enriched by Lewis' skillful use of language" (Silvey, 406). "Each book has something new and different to offer and there is no weakening of either inspiration or interest" (Eyre, 132). It is interesting that Lewis’ inspiration came from a dream: "At first I had very little idea how the story would go. But then suddenly Aslan came bounding into it. I think I had been having a good many dreams of lions about that time...Once he was there, he pulled the whole story together, and soon he pulled the six other Narnian stories in after him (On Stories: And Other Essays on Literature, 1980). Lewis was "concerned to do for children what he had done for an adult readership in his science fiction... to re-imagine the...story in an exciting narrative context... [The Narnia books are] intoxicating to all but the most relentlessly unimaginative of readers, and must be judged the most sustained achievement in fantasy for children by a 20th-century author" (Carpenter & Pritchard, 370).

FIRST EDITION OF WATERSHIP DOWN; SIGNED BY RICHARD ADAMS

ADAMS, RICHARD.

Although Watership Down was rejected by 13 publishers before Collings accepted it, it has never been out of print, and is Penguin Books' best-selling novel of all time. It won both the Carnegie Medal and the Guardian Prize. The title refers to a hill in the north of Hampshire, England, near the area where Adams grew up. The story has its roots in the tales that Richard Adams made up for his young daughters during long car journeys. As he explained in 2007 in an interview with the BBC, he "began telling the story of the rabbits ... improvised off the top of my head, as we were driving along." He based the struggles of the animals on the struggles he and his friends encountered during the Battle of Oosterbeek in 1944. The daughters insisted he write it down—"they were very, very persistent." After some delay he began writing in the evenings and completed it 18 months later.

“YOU GOT EYES” FIRST EDITION OF THE FAMED PHOTOGRAPHER FIRST BOOK, “THE AMERICANS”; INSCRIBED BY ROBERT FRANK

FRANK, ROBERT; INTRODUCTION BY JACK KEROUAC.

Jack Kerouac wrote in his preface of The Americans, "Robert Frank… he sucked a sad poem out of America onto film, taking rank among the tragic poets of the world. To Robert Frank I now give this message. You got eyes." Frank’s Americans eventually achieved legendary status as “the most renowned photobook of all… It struck a chord with a whole generation of American photographers… Many memorable photobooks have been derived from this mass of material. None has been more memorable, more influential, nor more fully realized than Frank's masterpiece” (Parr & Badger I:247). “From the more than 20,000 images that resulted, Frank eventually chose 83 of them and arranged them into four chapters… ‘With these photographs,’ he later wrote, ‘I have attempted to show a cross-section of the American population. My effort was to express it simply and without confusion. The view is personal…’ Such a simple intention for a book that would so alter the course of modern photography” (Roth, 150).

HEATH, DAVE; FOREWORD BY HUGH EDWARDS.

A Dialogue with Solitude is an assemblage of photographs into poetic sequence, entailing a mere hundred pages. Dave Heath had envisioned it in a larger format, and its meager size was not his original intent. Regardless, it was an instant hit, and collectors have sought it out for over four decades. "A Dialogue With Solitude is a period piece that resonates" (Village Voice). “A book that has achieved cult status,” Heath’s photobook is particularly noted for its attempt “to photograph internal emotions… [by investigating] the essential solitude of an individual through a series of sequences” (Parr & Badger II:104).

KLEIN, WILLIAM.

“William Klein’s magnum opus… this greatest of 1950s photobooks by a native American was never published in the United States… New York is a quintessential monument to the American cultural scene of the 1950s… It is the upside to Robert Frank’s downside” as captured in The Americans (Parr & Badger, 235-6, 243).  $7,200

LEVITT, HELEN; AGEE, JAMES.

“James Agee, dead ten years in 1965, had written his essay for the book in 1946… Although he may not have been the first writer to apply the word lyrical to Levitt’s marvelously serendipitous images of urban street theater, his essay was for some time their most persuasive critical frame. In this edition, his text literally brackets the 50 photos, which are arranged in an episodic montage—bleak, antic, poignant; sometimes melodramatic, often comic—at once suggestively narrative and as ephemeral as a passing glance” (Roth, 178). In this timeless work, “Levitt’s photographs are beautiful—major, underrated works. Like Henri Cartier-Bresson, she achieves a rare balancing act: her pictures have sentiment without being sentimental” (Parr & Badger II:252).  $5,000
