Gr ant, James. THE NARRATIVE OF A VOYAGE OF DISCOV-
ERY, performed in His Majesty’s Vessel the Lady Nelson, of Sixty Tons
Burthen, with Sliding Keels, in the Years 1800, 1801, and 1802, to New
South Wales. By James Grant, Lieutenant in the Royal Navy. Including
Remarks on the Cape de Verd Islands, Cape of Good Hope, the hitherto
Unknown Parts of New Holland, discovered by him in his Passage (the
first ever attempted from Europe) through the Streight separating that
Island from the land discovered by Van Dieman [sic]: Together with
Various Details of his Interviews with the Natives of New South Wales;
Observations on the Soil, Natural Productions, &c. not known or very
slightly treated of by former Navigators; with his Voyage home in the Brig
Anna Josepha round Cape Horn; and an Account of the Present State
of the Falkland Islands. To which is prefixed an Account of the Origin
of Sliding Keels, and the Advantages resulting from their Use; With an
Appendix of Orders, Certificates, and Examinations, relative to the Trial
Cutter. The Whole illustrated with elegant Engravings. London: Printed
by C. Roworth, Bell Yard, Fleet Street, for T. Egerton, Military Library,
Whitehall. 1803. Demy 4to, First Edition; pp. [iv](title & dedication,
versos blank), [ii](List of Encouragers), [viii](Contents, last Erratum &
Directions to the Binder), [v]-xxvi(An Account of the Origin of Sliding
Keels), [ii](blank), 196(last blank); large folding plan of the sliding keels,
folding chart, 1 coloured & 5 b/w. plates, appendix; neatly recased in orig-
inal papered boards (rebacked, with printed paper label in style similar
to original, and free endpapers replaced using contemporary paper; spine
ends a little worn); entirely uncut and unopened; an exceptionally fine & clean copy; rare. London; Printed for T. Egerton; 1803. ***Ferguson 375; Wantrup 75; Hill, page 126. This copy is complete with the rare “List of Encouragers” leaf AND the blank leaf d4, neither mentioned by Ferguson, and one or both not present in most copies. The plates and chart were all engraved by S. I. Neele, 352 Strand and it seems that the work was not in fact published until 1804 as while the coloured plate of the Crested Cockatoo and the plate of the Lady Nelson in the Thames are dated July 1st, 1803 and the chart is dated Dec. 27th 1803, the remaining plates (except that of the sliding keels which is undated) are all dated Jan. 10th 1804. Never having been rebound, this copy has the plates all together, before the main text, with the result that the fine coloured plate of the Crested Cockatoo which almost invariably has the text offset across it, is here unmarked and in its original glory. The Lady Nelson was originally sent out to survey the unknown coasts of New Holland and was later chosen to accompany Matthew Flinders’ on his circumnavigation of Australia. She accompanied him when he set off, but her slow sailing meant she was unable to keep up and was forced to turn back when she ran aground off the Queensland coast. The voyage included the first navigation of Bass Strait from West to East. The Lady Nelson was an experimental vessel, and her performance was of considerable interest to nautical science. Grant was given command rather than the designer Captain Schanck, as it was thought that the experiment would be given a fairer trial. The sliding keels did not, however, make the impact expected in spite of the advantage they presented for surveying in shallow waters. #21808

Together with an Essay on The Saturday Magazine by Gaston Renard and an Account of his Life by Annette Potts. Demy 4to, First Edition (as a book); pp. xxxii, 96; portrait frontispiece and one plate (see below), sketch map, 20 illustrations, notes, index; original decorated printed cloth. Melbourne; Gaston Renard Publisher; 1977. ***Edition limited to 200 numbered copies for sale, 30 for private circulation and 20 for copyright, publicity and other circulation. This is one of the 30 numbered copies for private circulation, having an additional plate of Govett’s Leap facing the limitation notice. The original twenty Sketches published in The Saturday Magazine over a period have never before been published in book form. [FERGUSON, incidentally, in his “Bibliography of Australia” - item 2175 - records only the first fourteen sketches]. GOVETT was Assistant Surveyor under Major T. L. MITCHELL from 1828 to 1833, and recorded many of the topographical features of Sydney’s environs for the first time. Govett’s Leap was named in his honour. #48117

NOTICE TO CUSTOMERS:

This is our one hundred and seventy-sixth short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist.

We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: books@GastonRenard.com and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by fax or by post please use the Order Form at end.
