John Howell (no relation) grew up with books. The home where he grew up had a “Living Room” that was barely used and a “Den” that had one wall dominated by a television set and opposite that wall a plate glass window that overlooked the North runway of Los Angeles International Airport. The two other walls of the Den were filled with books. I remember natural history books and a complete set of the novels of Sir Walter Scott that my mother inherited from her father. I was reading Conan Doyle’s Sherlock Holmes novels in elementary school. With a master’s degree in European Church history (sixteenth century) and a Candidate in Philosophy degree (the infamous ABD – All But the Dissertation – the book seller’s degree!) in American History from UCLA, I am naturally curious about history, politics, and personalities, especially of the Golden State. I wrote catalogs for eight years for Jeff Weber Rare Books, the successor to the firm of Zeitlin and Ver Brugge of Los Angeles. I have been buying and selling books on my own account since 2005 and was accepted into the Antiquarian Bookseller’s Association of America in April, 2011. Enjoy our first catalog; we trust it will be the first of many more to come.
