A duplicate from the Bibliotheque Universitaire, Bordeaux, with stamp on title-pages, in the bottom margin of plates and in margins of a few text pages. The two parts were published as monographs in the Palaeontographical Society’s series. The Index to Volume II is not present; it was apparently overlooked and was not published until 1858, when it appeared as a single leaf. The collation of this copy differs slightly from Freeman’s in which no mention is made of the final leaf in Volume I, and which gives only pp. [iv] for the preliminaries to Volume II. As Freeman notes, a complete set of the Palaeontographical Society’s monograph volumes appeared in facsimile in 1966, but Darwin’s work was not available alone.

London; Printed by George Eyre and William Spottiswoode ... and sold by J. D. Potter, Agent for Admiralty Charts ...; 1859. ***Fitzroy is probably best known for his role as captain of HMS Beagle during her voyage with Charles Darwin as naturalist and geologist. However he was a pioneering meteorologist, who after a stint as New Zealand’s second Governor and further naval service was appointed on the recommendation of the Royal Society as head of a new department which was to become the Meteorological Office. He was greatly concerned for the safety of seafarers and the possibilities of making weather information more widely available. He directed the design and distribution of a type of barometer which was fixed at every port to be available to crews for consultation before setting out to sea and the invention of several different types of barometers was attributed to him. This is his first work on the weather and the possibilities of prediction by means of barometric measurements. He later, in 1863, published a more substantial book, The Weather Book, since acclaimed as far ahead of the scientific opinion of the time. #67090

La Perouse, J. F. G. de. *A VOYAGE ROUND THE WORLD*, in the Years 1785, 1786, 1787, and 1788, by J. F. G. de la Perouse: Published conformably to the Decree of the National Assembly, of the 22d of April, 1791, and edited by M. L. A. Milet-Mureau, Brigadier-General in the Corps of Engineers, Director of Fortifications, Ex-constituent, and Member of Several Literary Societies at Paris. In Three Volumes. Translated from the French. Vol. I [II, III]. Second Edition. London: Printed for J. Johnson, St. Paul's Church-Yard. 1799. 3 vols., demy 8vo; Vol. I, pp. x, [ii](list of plates and charts in the three volumes), 532; portrait as frontispiece, 2 folding charts & 2 folding plates; Vol. II, pp. x, 498; 4 folding charts, 15 folding & 9 full-page plates including natural history subjects, coastal views, etc.; Vol. III, pp. viii, 446, 60(navigation tables); 2 folding & 2 full-page charts, 6 folding plates & 2 full-page plates; full contemporary tree calf, gilt panelled backs & marbled endpapers; some foxing of most plates, otherwise very clean; bookplates of George Owen Smith Collection 1892, Port Elizabeth Public Library in each volume, with a very small neat stamp on verso of plates and at foot of a few leaves; contemporary signature of C. C. Chisteman at head of titles to Vols. II & III, but clipped from Vol. I, with head of title-page & following couple of leaves to Vol. II a little stained from an early attempt at removal of the signature; a very good, sound and handsome set. London; J. Johnson; 1799. ***Ferguson 289; Hill 2, 974; Sabin 38963. One of four translations (one being an abridgement in one volume, 8vo only) published in London in 1798, here reprinted in 1799. Ferguson calls for an atlas of 44 plates, but it is doubtful that this was issued with this edition--his entry for the first edition (1798) of this version (F. 270) makes no mention of an atlas -- probably it was only a binding variation with the plates in a separate atlas rather than bound up in the text volumes as directed by the publisher (one of the charts in Vol. III is in two sheets, which would account for the discrepancy in numbers). The voyage aroused intense interest but the ships were not heard of after leaving Botany Bay in 1788 and their fate was not positively determined until Peter Dillon discovered the wrecks at Vanikoro over 30 years later. #12603  A$2250.00 Sale Price: A$1650.00

NOTICE TO CUSTOMERS:

This is our two hundred and fifty-fourth short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by fax or post. If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist. We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: books@GastonRenard.com and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by fax or by post please use the Order Form at end.
